EAL Definitions

Category A: Up to 18 months exposure to English

Pupils who entered the UK within the last 18 months directly from an overseas country where a language other than English was wholly spoken inside and outside the home.

Pupil who entered school within the last 18 months speaking wholly or mainly a language other than English at home and therefore have had very little exposure to English apart from at school and by participating in informal activities such as playing with English-speaking friends and watching television in English.

Category B: Between 18 months and 5 years exposure to English

Pupils who entered the UK directly from overseas between 18 months and five years ago (if known) from a country where the pupil and their family spoke a language other than English (i.e. where the exposure to English has been wholly due to experiences after arriving in the UK).

Pupils who entered school in nursery or Reception within the last five years and who continue to speak wholly or mainly a language other than English with one or both parents or carers even if they prefer to speak English in social contexts with their peers.

Pupils who have entered the UK within the last five years from a country where English was not the main social language of the population although used in business and education contexts (e.g. Sierra Leone).

Category C: Pupils who have had between five years and up to 10 years of exposure to English

Pupils who arrived from another country directly into a UK school over five years and up to 10 years ago (if known).

Pupils who have had over 5 years and up to 10 years of exposure to English including full-time schooling, fluent English spoken by one or more adults in the home and informal activities such as playing with English-speaking friends, watching television in English etc.
