# ADO Alternative Provision

## Type of provision

ADO operate a specialised AP service that brings together our expertise in both our Healthcare and Education services. We can provide both indoor and outdoor locations for students and are a registered training centre.

At ADO we have a real passion for outdoor education and what better location than our Healthcare and Education Centre in Welling. The centre, a 6.4 acre semi woodland and open space area, is home to many of our animals and provides a perfect base to offer many specialised subjects including Animal Care, Equine Studies, Countryside & Environment, Sport (Including Outdoor Adventurous Activities) and many more.

## Type of learner

Our AP is a specialised education setting that aims to create flexible, individual programmes of learning support for children and young people who, for a variety of reasons, maybe unable to access mainstream education. From the point of referral, we focus on the special educational needs and disabilities (SEND) of the learner and on family support, in order to provide the most effective and appropriate educational intervention.

Our AP specialises in emergency, short, medium and long term education placements of young people with SEND including Learning Difficulties, Emotional Behavioural Difficulties, Challenging Behaviour and Medical Health needs including Mental Health Difficulties. Our team of trained therapists are multi-skilled and are used to delivering educational programmes as part of a curriculum.

We work in small 1:3 classes or 1:1 and offer individual child and young person centred learning programmes to meet their needs and interests enabling young people to learn whilst developing confidence and self-esteem. Our AP is catered to the full school education age range (5-18).

**Key Stage 1 & 2:** These children follow the National Curriculum.

**Key Stage 3:** These children follow the National Curriculum. An appropriate level AQA Awards (Entry, Level 1 and Level 2) to these young people to support their self-esteem and confidence to return to mainstream school with achievements. AQA Awards are offered in various Animal Care, Environmental and Bushcraft subjects. AQA Awards are offered in specific areas of interest to the young person in the minimum subjects below.

**Key Stage 4:** S4 Vocational BTEC awards will be available in the following subjects - Animal Care and Countryside & Environment with others to follow.

**Post-16:** bespoke service which can be discussed with the student, family and referrer.

Our staff team have a wide range of education experience teaching children, young people and adults in our areas of expertise:

Animal Care and Behaviour	Woodland Management
Equine Studies	Bushcraft Practitioners
Horticulture	Forest School Leaders
Food Growing	Adventure Sport Low Ropes Constructors and Instructors

We have specialist staff including therapists to support the needs of students with a range of special educational needs and complex learning difficulties or disabilities including mental ill

health. Our staff team with therapy qualifications and experience include specialisms in the following interventions:

Counselling	Drama Therapy Mindfulness
Animal Therapy	NLP/ life coaching

# Education My Life Matters

## Type of provision

Education My Life Matters is a Lewisham based Independent school and Alternative Provision with an objective to reconnect, re engage and empower the learner who could possibly be at risk of becoming the subject of permanent exclusion.

We work with learners in Key Stage 3 & 4

We are keenly aware of the challenges that can and do impact on today's young people. We understand that where learners become permanently excluded from school they can and do run the risk of 'Going Missing in Education'. Through it provision Education my Life Matters can offer to learners, that final chance at realising their learning potential through the medium of an alternative provision alongside support and partnership to achieve one of three possible outcomes:

- Supporting reintegration back into mainstream education.
- Supporting transition to a specialist school or college.
- Supporting the completion of Year 11 and transition to a suitable KS5 provision or apprenticeship.

Education My Life Matters support schools to support their learners. Our provision works in partnership with the placement's base school, other relevant external agencies and parents/carers so as to secure the best possible outcome for the learner.

## First and sixth day exclusions

In the event of a learner receiving a first and sixth day exclusion, Education My Life Matters is well positioned to provide swift and easy access to full time education, as is required by law. Any such placements can begin with as little as 24 hours' notice subject to the satisfactory completion of an assessment of learner's risk to the provision.

Alternatively, learners referred or directed to Education My Life Matters may come as a result of a range of ongoing issues. Primarily our learners come to us as a result of the following pathways:

- Permanent exclusion.
- Non- attendance.
- Ongoing and continued non-compliance with school expectations.

## Our offer

Education My Life Matters, in conjunction with the National Curriculum, delivers bespoke provisions tailored to meet the needs of the individual learner. We offer, where necessary and appropriate, a differentiated planning approach designed to re-engage and motivate the disengaged learner. We ensure opportunities are manifested using creative approaches, so as to achieve for the learner successful learning outcomes.

## How can learners access it? - referral routes

Learners are referred by the Local Authority, schools and other Alternative Provisions. Referral form available on request. Please call Strategic Lead for an informal discussion if necessary.

## **When, where and how is this provided**

Flexible delivery 8:30 - 3pm term time weeks days.  
Additionally, we offer bespoke mentoring packages twilight hours.

## **Charges**

Fees begin at £120 per day, additional costs may be necessary depending on the bespoke package required for the individual learner.

# The Complete Works

## Type of provision

The Complete Works Independent School offers a broad and balanced curriculum, which takes into account the requirements of the National Curriculum and the needs of all who study with us (be they full-time, part-time, short or long-term). We operate in a number of venues throughout London and the surrounding areas, such as Youth Clubs, Community Centres and Libraries.

Our goal is to reach every young person who is referred to us; and, to this end, we work tirelessly to find the creative spark that will ignite their interest in learning and empower them to realise their full potential. Each student is considered on an individual basis, and a tailor-made programme of education is designed to meet his or her specific needs. This may take the form of one-to-one individual tuition, group tuition, or a combination of both. Students are interviewed before being offered a place at the school, which allows us to assess their needs and evaluate their integration into a group setting.

Student enrolment can take place at any point the year and for short or long periods of time. All courses are age appropriate and we can accommodate students in Key Stages 1 - 4. Students are able to study with us for up to 30 hours a week.

Full-time students studying for GCSE examinations will mainly focus on Core Subjects (i.e. Maths, English Language, English Literature and Science). Other subjects and qualifications available can also include Photography, Art, Media Studies, ICT, PSE, History, Religious and Cultural Studies, Geography, Physical Education, Cooking, Music, Drama and Languages. Some students may be more suited to study for Functional Skills and Entry Level Examinations instead of GCSEs. We are also able to offer the Arts Award to those who wish to explore Performing Arts in greater depth.

We work in a flexible way to ensure that the needs of students with Education and Health Care Plans are carefully met. This may include providing a scribe or a reader or by finding ways to adapt the work so that it becomes more accessible and achievable. Speaking and Listening, Literacy and Numeracy and ICT are embedded in all our schemes of work and opportunities for sharing and appreciating each other's point of view are encouraged in all subject areas.

We ensure that we have a good provision for Personal and Social Education. Workshop Leaders are invited to talk on a range of topics, which are important to young people's being and social and cultural understanding. In addition many issues are also addressed through our daily reflection sessions and through discussions in English, History, Religious Studies and World View lessons. Further information is made available for students to access, through websites and the distribution of leaflets. Individual mentoring is also offered for those students we consider need further support in these areas.

We understand that it is very important that students have the opportunity to engage in group activities outside the venues we work in, as this facilitates the necessary acquisition of social skills. We therefore provide opportunities for groups to visit swimming pools and other sports facilities, and to partake in theatre trips and educational visits to Museums, Art Galleries and Historical places of interest.

The company's objective is 'to advance education, through creative means,' therefore creativity is intrinsic to the work we undertake with all our students. Since our incorporation, fifteen years ago,

we have supported thousands of young people, both inside and outside the school setting, to re-engage with education and to learn creatively and achieve academically.

## Type of learner

Any learner requiring additional support to achieve in a mainstream school setting. Many of our students have missed out on large parts of their education, for reasons including ill health or issues relating to their personal circumstances. Some may have special educational needs, such as dyslexia or autism, and others may have disabilities and difficulties. We also accept young people who have been excluded from other schools, providing they do not present an undue risk to the students presently studying with us, or to our staff.

## How can learners access KS4 provision - Referral routes

We accept referrals through schools or local authorities.

## Type of learner

**KS3 Reset Model** Schools can buy a full time placement with us for one term. This is a form of early intervention where pupils have exhausted their opportunities in a school, but before any external move has taken place such as a managed move or short term placement at a PRU. The purpose of this placement is to give the pupil a break from the mainstream environment and give the school a chance to look at appropriate strategies for their return. During the term with us the focus is to identify issues that cause conflict both at school and at home, work on emotional literacy and developing coping strategies to manage their behaviour through our Behaviour for Learning Framework.

**KS3/ 4 In-between School Placement Support** A one term support package for pupils who have exhausted their chances at their chosen mainstream school. This programme will act as a stepping stone for the managed move process. Instead of a pupil being moved directly to a new school they will spend a term with TLG working within the Behaviour for Learning Framework as per the Reset model outlined above. They can then transfer onto the roll of the new school with a full assessment of need completed and some strategies in place for a successful transfer. This model could also work with students who are new to the area who need some additional input into developing behaviour for learning before entering their mainstream school setting.

**KS4 support for pupils who are at risk of no attainment** The support offered by TLG is for students who are unlikely to achieve GCSE qualifications and need support to re-engage with learning and work towards qualifications at an appropriate level that will allow for progression in a post 16 setting. The students will be supported in their functional skills (English, Maths and ICT) and will be entered for these exams at the level they are capable of. They will also undertake a range of subject based lessons that will be accredited with the SEFL (Skills for Employment and Further Learning) qualification. The length of time a student is referred to us will shape the size of the qualification.
