

4 – Town centre areas and sites

4.4 Lee High Road Town Centre Area

Overview

4.25 The Lee High Road Town Centre Area encompasses Lee High Road to its junction with Eastdown Park, along with the Marischal Road shopping parade. Lee High Road provides the principal approach to Lewisham town centre from the east. The nature of this edge of centre Town Centre Area is distinct from that of the retail core of Lewisham town centre, as it is characterised by smaller retail units and independent specialist retailers. The Town Centre Area already constitutes a mixed and sustainable community, with some affordable housing located alongside more affluent residences.

4.26 Lee High Road is a traditional high street with continuous and varied ground floor retail (A1 and A3) uses, typically with several floors of residential use above. It has a strong, independent character and frontages are relatively short.

Independent trading in Lee High Road

4.27 In 2011, a site at the eastern end of Lee High Road was completed as a new supermarket (1,750 sqm) with 57 homes above.

4.28 The western end of the Lee High Road Town Centre Area (Site 7, Figure 4.4) is still to be delivered and has the following indicative capacity:

- 40 homes
- 2,000 sqm net retail

View to central Lewisham from Lee High Road

Key area objectives

- Protect and enhance the retail character and townscape qualities of the Town Centre Area.
- Create a more pedestrian friendly environment.
- Improve the ecological quality of the River Quaggy environment.
- Protect residential amenity for existing and future residents

4 – Town centre areas and sites

Policy LAAP6:

Lee High Road Town Centre Area

1. The Lee High Road Town Centre Area is designated for mixed use development (A1, A2, A3, B1, C3). The Council will protect existing positive buildings (as designated in policy LAAP23 heritage assets) and will elsewhere encourage development that contributes to the realisation of the following principles:

- (a) protect and enhance small scale, independent retail outlets and evening economy uses, limiting amalgamation of units,
- (b) protect and enhance the amenities of existing residents,
- (c) the scale of new development should respect the scale of surrounding development.

Independent retailers along Lee High Road

2. Further focus should be on improving the environmental quality of the Town Centre Area, particularly through:

- (a) ensuring the high quality design of new and replacement shopfronts,
- (b) enhancing the public realm in general and particularly reinforcing the positive

relationship between the small stretches of cobbled street on the northern side of Lee High Road, including the western end of Marischal Road, to the busier Lee High Road,

- (c) protecting and enhancing the biodiversity along the River Quaggy and its immediate environment and, where possible, improve visual and physical access to the river corridor in consultation with the Environment Agency and other relevant stakeholders.

3. the site is situated within Flood Zone 3a High Probability. Applicants will need to comply with Core Strategy Policy 10 and work closely with the Environment Agency to ensure proposals will deliver a positive reduction in flood risk. A Flood Risk Assessment for the site will need to be submitted that clearly and concisely summarises how the reduction in flood risk will be delivered.

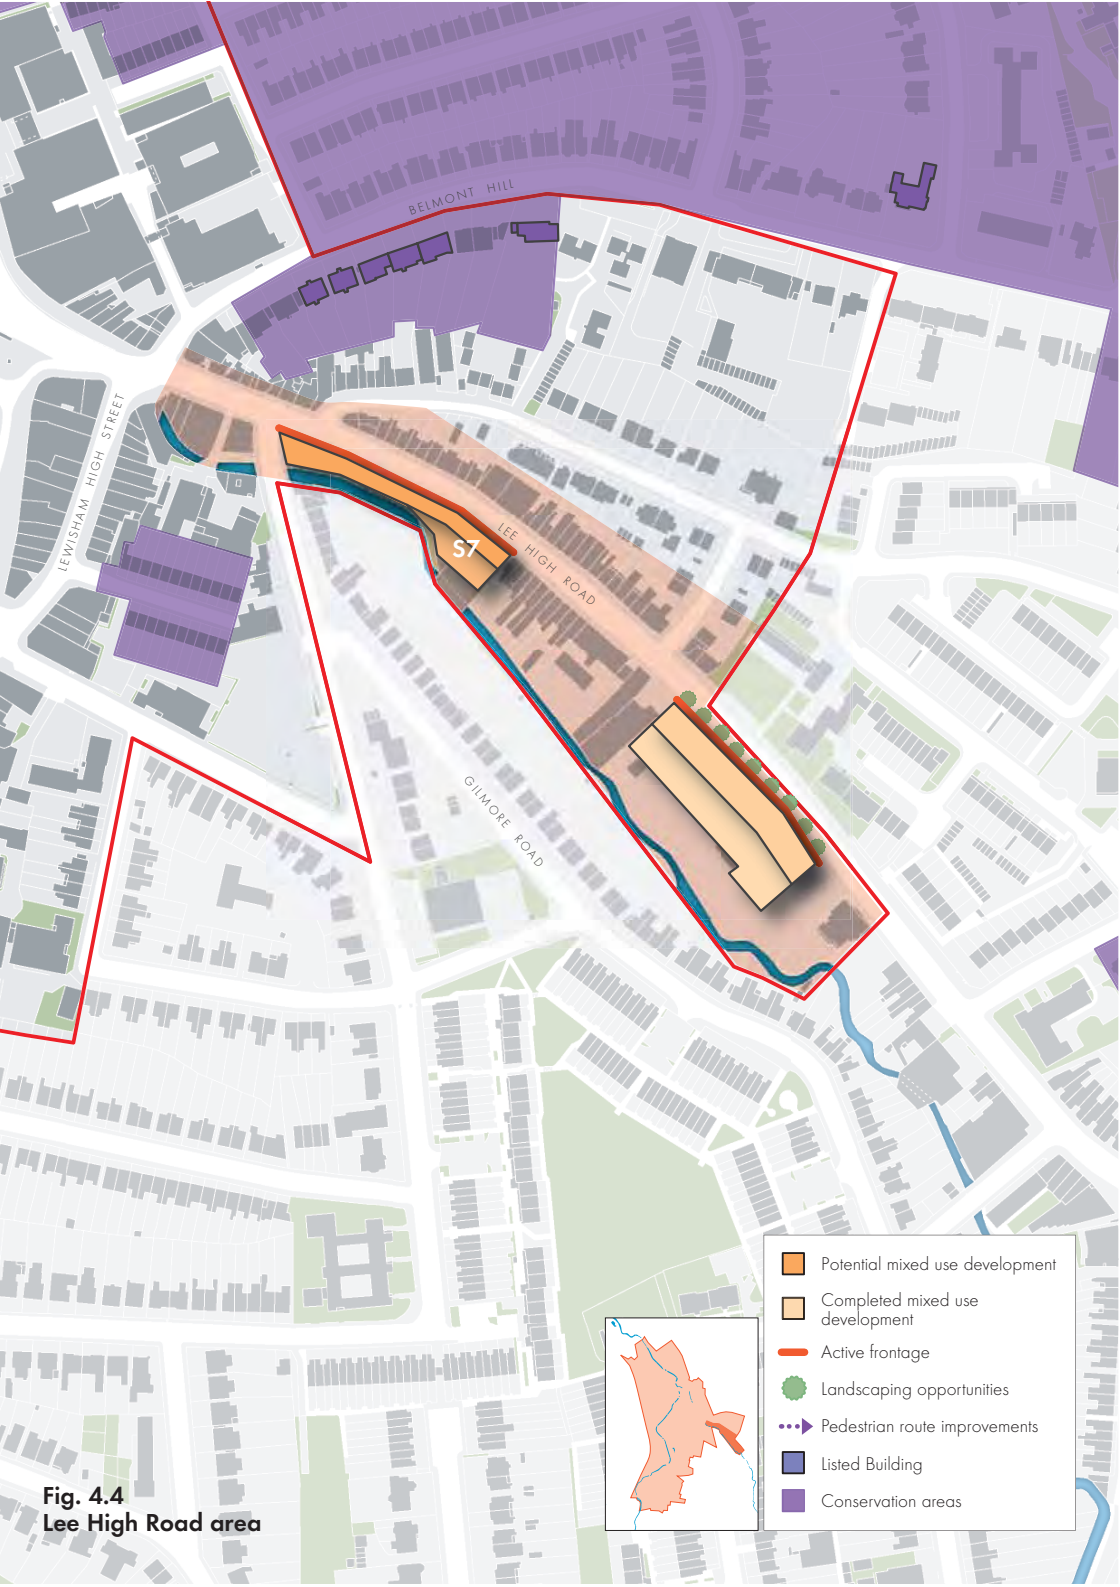

Fig. 4.4
Lee High Road area

- Potential mixed use development
- Completed mixed use development
- Active frontage
- Landscaping opportunities
- Pedestrian route improvements
- Listed Building
- Conservation areas

4 – Town centre areas and sites

Delivery context

4.29 Development in this Town Centre Area should take account of the policies in this section, the spatial strategy and all of the area-wide policies detailed in Section 5 of this AAP. In particular, the following area-wide policies are of importance:

- Growing the local economy
- Mixed use
- Employment uses
- Town centre vitality and viability
- Retail areas
- Public realm
- Sustainable transport
- Evening economy uses

4.30 For the full list of policy and evidence base linkages with this policy see Appendix 1.

Sivan Temple, Lewisham

Completed development in Lee High Road

Contributions

4.31 In addition to affordable housing and the infrastructure priorities identified in LAAP22 (social infrastructure), the priorities for site-specific developers contributions associated with new development proposals in this Town Centre Area are:

- Improvements to the channel and environs of the River Quaggy
- Environmental improvements to Albion Road car park
- Physical and public realm improvements to Lee High Road
- Public transport improvements, including measures to assist bus operations, accessibility for passengers and awareness

4 – Town centre areas and sites

4.5 Ladywell Town Centre Area

Overview

- 4.32 The Ladywell Town Centre Area is the southern most part of the town centre. An edge of centre section of this Town Centre Area stretches along Lewisham High Street from the end of the Hospital up to the railway bridge, while an out of centre section runs along Ladywell Road from the junction with Lewisham High Street up to the Ladywell Station Bridge.
- 4.33 The Town Centre Area is characterised by a historical concentration of civic and community facilities which form part of the St Mary's Conservation Area, taking its name from the ancient church which anchors this community hub. The south side of Ladywell Road hosts a collection of beautiful historic buildings, including the Playtower (former Baths) where the Council is supporting efforts to see the building refurbished by a local community trust, and the former police station which is a listed building. Also in this Town Centre Area are the former library, the current and former fire station buildings, Ladywell leisure centre (Site 8, Figure 4.5), the mortuary and coroner's court building and the former Vicarage of St. Mary's building (Ladywell House), which dates back to 1693 and is one of the borough's oldest buildings.

Historic and community buildings of Ladywell

4 – Town centre areas and sites

Former Police Station in Ladywell Road

Lewisham High Street in Ladywell

4.34 Although the whole town centre is part of the Core Strategy 'Regeneration and Growth Area', the Ladywell Town Centre Area has a different nature from the rest of the town centre. The Council has undertaken a Conservation Area management plan for sections of this Town Centre Area and as it is in parts unsuited to wide scale growth. However,

there are some key and important opportunities in the Town Centre Area that require consideration, in particular the Ladywell Leisure Centre will be surplus to requirements and brought forward for redevelopment once the new leisure centre opens on Loampit Vale. Additionally, a number of smaller employment sites along the north side of Ladywell Road may be suitable for mixed use redevelopment.

4.35 Parts of the Ladywell Town Centre Area, including the leisure centre site, form part of Lewisham's Low Carbon Zone. Lewisham Council is working in partnership with the Mayor of London, the GLA and a range of public, private and community sector groups to deliver a reduction in CO2 emissions of 20% by 2012 and a 60% reduction by 2025.

4.36 The Ladywell Town Centre Area has the capacity to deliver:

- 150 homes
- 1,400 sqm net retail floorspace

Key area objectives

- Promote the Ladywell Leisure Centre site for redevelopment for an appropriate mix of uses including retail and residential
- Conserve and enhance the heritage assets and community facilities that are prevalent in the Town Centre Area.
- Encourage further work to promote the Town Centre Area as an environmental champion, including the introduction of a decentralised energy network

4 – Town centre areas and sites

Policy LAAP7:

Ladywell Town Centre Area

1. The Ladywell Town Centre Area is designated for mixed use development. All proposals in the Ladywell Town Centre Area should adhere to the following principles:

- (a) promote the conservation and enhancement of the multiple heritage assets in the Town Centre Area through sensitive development and environmental improvement,
- (b) support efforts to increase the hub of community facilities in Ladywell Road. In particular, to bring the Ladywell Playtower building back into active community use,
- (c) promote development that contributes to the Lewisham Low Carbon Zone target to reduce CO2 emissions of 20% by 2012 and a 60% reduction by 2025,
- (d) there may be smaller development opportunities fronting Ladywell Road. All developments should provide a mix of uses suitable to an edge of town centre location and ensure active frontages to streets.

Additional site specific requirements:

S8 Ladywell leisure centre site

2. The Council will seek to bring forward a comprehensive development of the Ladywell Leisure Centre site and adjoining land where appropriate for a mix of uses including retail (A1, A2, A3) up to 1,400 sqm and housing (C3).

3. The following key principles will apply:

- (a) proposals should seek to enhance the Lewisham High Street frontage through the incorporation of active uses at

groundfloor level and enhancements to the public realm in front of the site and enhancements to permeability through the site. Residential units should be situated at upper levels and to the rear of the site with associated amenity space provision,

- (b) new development should seek to improve vehicular servicing of adjoining land to the south,
- (c) opportunities to establish a site-specific communal energy system with potential to link into a larger Lewisham Hospital decentralised energy system in the longer term will be encouraged,
- (d) proposals could include the redevelopment of Lewisham Free School, subject to the allowance being made for alternative provision of equivalent benefit to the community (see LTC COM3).

S8 Ladywell Leisure Centre

Fig. 4.5
Ladywell area

- Potential mixed use development
- Completed mixed use development
- Active frontage
- Landscaping opportunities
- Pedestrian route improvements
- Listed Building
- Conservation areas

4 – Town centre areas and sites

Delivery context

4.37 Development in this Town Centre Area should take account of the policies in this section, the spatial strategy and all of the area-wide policies detailed in Section 5 of this AAP. In particular, the following area-wide policies are of importance:

- Heritage assets
- Mixed use
- Town centre vitality and viability
- Public realm
- Tall buildings
- Public and shopper parking spaces
- Sustainable transport
- Carbon dioxide emission reduction
- Adapting to climate change
- Evening economy uses

4.38 For the full list of policy and evidence base linkages with this policy see Appendix 1.

4.39 Further considerations for this Town Centre Area that should be considered alongside the stated policy and Figure 4.5 include:

Public realm:

4.40 Lewisham High Street and Ladywell Road form the principal traffic and pedestrian routes through this Town Centre Area. The junction of these roads is not particularly pedestrian friendly and this should be addressed as part of any large scale redevelopment. The same can be said for the junction of Lewisham High Street and Courthill Road.

Busy roads a Ladywell and Lewisham

4.41 The open space and cemetery at St. Mary's church and the space outside the leisure centre are valuable local public assets. These should be protected, or in the case of redevelopment of the leisure centre, re-provided.

Building scale and quality:

4.42 The Town Centre Area contains a Conservation Area and a number of identified heritage assets (buildings of architectural value) and new development will be required to respect this.

Ladywell Road

4 – Town centre areas and sites

4.43 The scale of development in this Town Centre Area is smaller, at lower density than the rest of the town centre and particularly sensitive to tall buildings. Surrounding development should take close regard of this reduced scale. The grain of development alters through the Town Centre Area with three and four storey terraces to the west side of Lewisham High Street reducing to 2 storey terrace houses in Ladywell Road.

Contributions

- 4.44 In addition to affordable housing and the infrastructure priorities identified in LAAP22 (social infrastructure), the priorities for site-specific developers contributions associated with new development proposals in this Town Centre Area are:
- Investing in the Waterlink Way initiative
 - Ensuring the heritage assets contribute positively to community life
 - Highway improvements particularly by the Ladywell Leisure Centre site
 - Public transport improvements, including measures to assist bus operations, accessibility for passengers and awareness
 - Support delivery of the Low Carbon Zone CO2 reduction targets
 - Public access to non-residential car parking
 - Support local education needs

4 – Town centre areas and sites

4.6 Central Town Centre Area

Overview

- 4.45 The Central Town Centre Area forms the core shopping area of the town, including the Lewisham Shopping Centre and the street market. The Town Centre Area also comprises land directly adjoining the north and south of the Lewisham Shopping Centre, Molesworth Street and Lewisham High Street.
- 4.46 The Lewisham Shopping Centre dominates the primary shopping frontage and the owners are keen to develop and improve the offer available. Land north of the Lewisham Shopping Centre (including the Citibank Tower) (Site 9, Figure 4.6) is located at the junction between the Lewisham Gateway development and Lewisham High Street and is also visible from Lee High Road. It will play a crucial role in achieving regeneration objectives for the town centre and plays an important townscape role. To the south of the Lewisham Shopping Centre (Site 10, Figure 4.6) there is scope for the redevelopment of the site of the former model market and the Beatties building. This will help to secure the regeneration of the southern end of the High Street.
- 4.47 Lewisham High Street is the economic heart of the town centre and its most important social space. It is also home to Lewisham's historic street market, and several churches, the clock tower and other heritage assets. The market plays an important role for local people, in that it provides sale of affordable products in an accessible location.

Lewisham High Street

Inside the Lewisham Shopping Centre

The historic street market

4 – Town centre areas and sites

The interaction of shops and offices with historic assets

4.48 Molesworth Street provides the principal north – south route for local through traffic and is a key component in local bus routing. However, together with the west side of the Lewisham Shopping Centre and the railway lines to the west, it acts as a significant barrier to east – west movement and the result is a fairly hostile vehicular-traffic-dominated poor pedestrian environment with reduced building frontage at the back of the Lewisham Shopping Centre. The western side of the road is almost entirely a Local Employment Location (LEL) providing important local jobs.

4.49 Development opportunities in the Central Town Centre Area have the following indicative capacity:

- 200 homes
- 10,000 sqm net retail space

Key area objectives

- Support and improve the vitality and viability of the Lewisham Shopping Centre
- Encourage a sustainable form of development, including an increase in centrally located housing
- Improve the quality and safety of the environment for all users
- Attract investment to Lewisham High Street
- Improve east-west permeability through the Town Centre Area
- Ensure continuation of the market's important role in meeting local needs
- Provide an improved trading environment for market traders

4 – Town centre areas and sites

Policy LAAP8

Lewisham Centre Town Centre Area

1. The Council has identified the following key principles within the Central Town Centre Area:

- (a) as the Lewisham Shopping Centre is managed, refurbished and redeveloped over time, ensure every opportunity is taken to improve the number and nature of the east – west connections across the Lewisham Shopping Centre area,
- (b) create a more coherent and pleasant environment which meets the needs of both pedestrians and vehicles,
- (c) secure investment in the Waterlink Way alignment along the course of the River Ravensbourne,
- (d) create an active frontage to Molesworth Street,
- (e) working in partnership with market traders and other stakeholders, achieve environmental improvements to Lewisham High Street and street market area.

2. The site is situated within Flood Zone 3a High Probability. Applicants will need to comply with Core Strategy Policy 10 and work closely with the Environment Agency to ensure proposals will deliver a positive reduction in flood risk. A Flood Risk Assessment for the site will need to be submitted that clearly and concisely summarises how the reduction in flood risk will be delivered.

Shops & stalls trade side by side in the High St

Additional site specific requirements:

S9 Land north of the Lewisham Shopping Centre

3. This site comprises land to the north east of the Lewisham Shopping Centre, the Citibank Tower and the land surrounding it.

Redevelopment of the site could be in sections or phases, following the principles identified below:

- (a) redevelopment will be encouraged in conjunction with more comprehensive improvements to the Lewisham Shopping Centre to provide retail (A1 – A3) and/or leisure use on the ground floor with commercial, leisure and/or residential use on the upper floors,

4 – Town centre areas and sites

- (b) active frontages should be provided at ground floor level to Lewisham High Street, the new connection road between Lewisham High Street and Molesworth Street and the new northern entrance mall to the Lewisham Shopping Centre,
- (c) any proposal should seek to enhance the existing public realm and setting of the Lewisham Shopping Centre and its entrances,
- (d) more intensive office use or residential conversion of the Citibank Tower would be favourably considered by the Council. Any proposal should include recladding of the building and improved environmental performance,
- (e) redevelopment (including taller elements) should respond positively to the Lewisham Gateway development and provide a welcoming and accessible entrance to the centre from Lee High Road,
- (f) new development should be mindful of future aspirations both on site and on nearby sites including required connections.

The southern roundabout

S10 Land south of the Lewisham Shopping Centre

4. The following key principles will apply to redevelopment of this site:

- (a) comprehensive redevelopment of the Beatties Building and model market sites should provide retail (A1-A3) or leisure uses on the ground floor with commercial and or residential uses on the upper floors,
- (b) the redevelopment should mark the beginning of the commercial and retail heart of Lewisham town centre, while respecting the height, mass and bulk of local surroundings. It should create a new southern anchor for Lewisham High Street to encourage customers to travel the full length of the High Street,
- (c) buildings should make the best use of the corner site and provide enclosure and active frontages to both Molesworth Street and Lewisham High Street as positive public space.

Fig. 4.6
Central area

4 – Town centre areas and sites

Delivery context

- 4.50 Development in this Town Centre Area should take account of the policies in this section, the spatial strategy and all of the area-wide policies detailed in Section 5 of this AAP. In particular, the following area-wide policies are of importance:
- Mixed use
 - Employment uses
 - Conversion of existing buildings
 - Town centre vitality and viability
 - Retail areas
 - Tall buildings
 - Public realm
 - Public and shopper parking spaces
 - Sustainable transport
- 4.51 Efforts should also be made to continue the support of and where possible make enhancements to the existing Shopmobility scheme.
- 4.52 For the full list of policy and evidence base linkages with this policy see Appendix 1.

Contributions

- 4.53 In addition to affordable housing and the infrastructure priorities identified in LAAP22 (social infrastructure), the priorities for site-specific developers contributions associated with new development proposals in this Town Centre Area are:
- Investment in the Waterlink Way initiative
 - Long term improvements to the Lewisham street market
 - Environmental improvements to the pedestrianised areas of Lewisham High Street, Molesworth Street and public realm in general including improved pedestrian crossings and landscaped measures
 - Promotion of long-term decentralised energy options (either by direct provision or by safeguarding opportunities)
 - Public transport improvements, including measures to assist bus operations, accessibility for passengers and awareness
 - Provision of cycle parking near to shops and leisure facilities

Lewisham Library is an important anchor for the south of the town centre

5 – Area-wide policies

- 5.1 Growing the local economy**
- 5.2 Building a sustainable community**
- 5.3 Environmental management**

Section 4 detailed the Town Centre Areas and development sites that make up the key regeneration areas within the town centre and which each require an individual approach and set of policies for redevelopment. Alongside this, a series of policies exist which are relevant to all the Town Centre Areas and the identified development sites, as well as across the wider town centre vicinity. This section presents those policies which will manage and implement town-centre-wide development.

As demonstrated in Figure 2.1 the AAP objectives have been matched with the objective themes (drivers for change) from the Lewisham Core Strategy to demonstrate the close relationship between the documents. As a result, the area-wide policies have been grouped under the Core Strategy objective themes as follows:

- Growing the local economy
- Building a sustainable community
- Environmental management

Each policy is followed by a short section of rationale which highlights key supporting evidence and explanatory text to assist with the implementation of the policy.

5 – Area-wide policies

5.1 Growing the local economy

- 5.1 Section 5.1 details a number of key policies that are vital in protecting and enhancing the economic prosperity of Lewisham town centre. This includes policies regarding employment uses, housing options and the enhancement of the retail offer.
- 5.2 For the full list of policy and evidence base linkages with these policies see Appendix 1.
- 5.3 The following policy (LAAP9) supports the implementation of the following objectives:
- Obj1 – Retail and town centre status
 - Obj2 – Housing
 - Obj4 – Employment and training
 - Obj5 – Open space and recreation
 - Obj8 – Community

Policy LAAP9: Growing the local economy

1. All proposals will be required to contribute towards the successful and sustainable growth of the local economy through the following:

- (a) implementation of Lewisham Gateway proposals (see Core Strategy Strategic Site Allocations Policy 6),
- (b) a greater component of residential development in the town centre within the overall mix of uses, supporting the borough's housing priority needs (see Core Strategy and London Plan targets)
- (c) delivery of retail and mixed use allocations on key development sites and the retention and/or re-provision of

- (d) employment and office uses in the town centre (see LAAP10 and LAAP11),
- (d) provision of community and leisure facilities (see LAAP22),
- (e) utilisation of development activity to promote training and employment opportunities, in particular through the local labour agreement,
- (f) public realm enhancements (see LAAP18),
- (g) creation of a secondary focus of activity at the southern end of the pedestrianised High Street, incorporating a mix of uses to address the change in the centre of gravity that is likely to result from the Lewisham Gateway development.

Rationale

- 5.4 The health of the town centre and its ability to develop and grow is a major strategic planning priority for Lewisham town centre, as detailed in the Core Strategy spatial strategy and the vision for the AAP. In order for this to happen, a wide mix of uses is required to create a town centre with a number of strengths that support each other.
- 5.5 The London Plan consistently supports the growth of the town centre, in particular through its policies relating to retail, housing and employment. The London Plan also places a major emphasis on establishing high viability in town centres through a number of policies including 2.15, 4.7 and 4.8.

5 – Area-wide policies

5.1.1 Employment

Overview

- 5.6 The economy, and in particular protecting and enhancing opportunities for employment and training, is a key issue for the town centre. The Town Centre Areas and sites detailed in Section 4 highlight specific locations where employment uses are expected to meet certain criteria. The following set of policies supports this approach by providing a framework of responsibilities for several types of employment use (known as a 'use class').
- 5.7 The council is keen to protect existing provision of employment land in the town centre and encourage the development of new supplies where appropriate. Certain uses, such as office and hotel provision, have been specifically allowed for through the policies and are to be encouraged.
- 5.8 The following policies (LAAP10 and 11) support the implementation of the following objectives:
- Obj1 – Retail and town centre status
 - Obj2 – Housing
 - Obj4 – Employment and training

Policy LAAP10: Mixed use

1. An appropriate mix of compatible land uses will be encouraged vertically and horizontally in Lewisham town centre. In particular, residential development located above ground floor retail and commercial uses will be supported. Proposals that do not supply a mix of uses will first be required to provide evidence of why this is not currently

deliverable and also asked to demonstrate the future adaptability of buildings to a mix of uses. New development should be designed to accommodate active uses at ground floor level, with a significant amount of active window display and entrances.

Mixed use scheme completed in Lee High Road

Policy LAAP11: Employment uses

General employment uses

1. In general, the Council will seek to retain or re-provide existing employment uses in the town centre (uses falling within the category of Use Class B). This includes the Local Employment Location in Molesworth Street which is designated in the Core Strategy (protected from non B uses).
2. The Council will consider redevelopment or conversion of employment sites/buildings for a mix of uses, especially in the Town Centre Areas and sites identified in Section 4 of this AAP. It is envisaged that redevelopment proposals will enable the intensification of

5 – Area-wide policies

sites and there is an opportunity to re-provide employment of an equal or greater floorspace as part of a wider mix of uses, including residential.

3. The employment area in Engate Street is similarly suitable for intensification and it is desirable to provide a 'southern anchor' to the town centre. This site is considered most suitable for redevelopment as employment, leisure or other town centre uses.

4. The conversion of other existing employment sites to a mix of uses including residential may be considered acceptable where:

- (a) the building has been vacant for at least two years and appropriately marketed for that length of time, and evidence is provided to this effect,
- (b) the scheme will considerably assist in meeting other regeneration objectives as identified in policy LAAP14 (Vitality and Viability),
- (c) the design is capable of longer term adaptation.

Office use

5. Lewisham town centre is the preferred location for office development in the borough and the Council will seek to promote new office development where appropriate. The Council will resist the loss of office space in the town centre. Where redevelopment entails the loss of office uses, proposals will be required to re-provide this office space in a modern format.

Hotel use

6. The Council is supportive of this use class in principle. The Council will insist that hotel

development occurs only within the highly accessible sections of the town centre where car-free development is appropriate and resist it where access is an issue.

7. Proposals must be sympathetic to the existing and emerging surrounding built and natural environment and show consideration of the wider aims of the site, Town Centre Area and town centre as a whole. A hotel proposal will be required to:

- (a) be of the highest design quality,
- (b) contain appropriate supporting ancillary space,
- (c) have a ground floor presence,
- (d) improve pedestrian links and not have a negative affect on transport links or public parking,
- (e) have provision for a coach and taxi drop off and collection point,
- (f) enhance the image and experience of the town centre,
- (g) demonstrate that it plans for long term adaptability and sustainability.

Employment use in the town centre

Rationale

5 – Area-wide policies

5.9 The vitality and viability of a town centre are greatly improved by the presence of an active employment sector, therefore it is of great importance to include policies which protect and enhance this offer within Lewisham town centre.

5.10 Much of the employment land within the borough is designated as an 'employment site' and subsequently protected by the Core Strategy employment policies, including the Molesworth Street Local Employment Location (LEL) within the town centre. However, the majority of the land in the town centre which is utilised for employment purposes is not included in these designations and therefore requires AAP policies to provide the protection required.

5.11 **Mixed use:** The mixed use and employment use policies support the provision of employment use on the lower storeys of development, while allowing other (mainly residential) uses at higher levels. Where the loss of employment land will generally be resisted, the re-provision along with other uses may be more favourable at particular locations. This supports Core Strategy Policy 4 in assisting town centre renewal and regional and national policy by encouraging high density use of land in a town centre with excellent levels of accessibility.

5.12 Sites in the Ladywell Town Centre Area may be considered an exception to the mixed use policy if evidence shows that this should be the case. The Council acknowledges that the character of this edge of centre area is different from the majority of the rest of the town centre and

some locations within the Town Centre Area may be inappropriate for mixed use.

5.13 The policy requires developments to have active window display at ground floor level. This does not simply mean a display window, but rather that the window displays activity and interaction with the inside of the building and the people who use it.

5.14 **Office use:** The Lewisham Employment Land Study (ELS) 2008 details that the borough has a weak office use sector, which requires an increase in provision in the next two decades. The Core Strategy advances this stance by identifying Lewisham town centre as the Councils preferred location for office provision. Therefore there is an emphasis in the AAP to support the protection and growth of office space where appropriate.

Citibank Tower

5 – Area-wide policies

5.15 There is an ambition to achieve growth in the large scale office sector, but also to ensure that smaller ‘town centre use’ offices of an improved level of quality are made available. The accessibility of a town centre location makes it highly appropriate to accommodate the demand for both large and small scale office development in Lewisham town centre.

5.16 Growing an office environment, even at a small scale, will provide an increased offer of local jobs and support the vitality of the town centre as a whole. Increased and improved office space as part of mixed use developments can lead to wider enhancement of the town centre offer. An increased local workforce alongside the increase in local residents will provide a larger and more varied market for retail and leisure facilities. In particular, it is hoped that an improved office environment will encourage development of the lunchtime and evening economy.

5.17 **Hotel use:** Lewisham town centre is within 20 minutes travel of central London and Canary Wharf generating a significant opportunity for hotel development. The Council consider hotels as a suitable town centre use in principle and are, in general, supportive of the idea of the generation of a hotel cluster.

5.18 Similar to the desired increase in office development, hotels will provide local employment as well as an increased market for local businesses through both employees and visitors. In particular, hotel guests may provide a considerable boost to the evening economy, assisting the

planned development of an expanding leisure, restaurant and bar cluster. In support of this, proposals must ensure ease of access to the town centre from the hotel.

Offices above retail or commercial

5.19 It is important that proposals for hotel development are of the highest quality design and appearance. The Council will ensure that any individual or cluster of hotels provides an environment that has a positive effect on the image of the town centre and will strongly resist any proposals that do not improve the range and quality of the existing offer.

5.20 The Council will protect the town centre against the construction of buildings that do not serve their intended purpose and run the risk of dereliction. To ensure that any proposed hotel development is deliverable and a sustainable use, the Council will require developers to secure a hotel operator prior to the commencement of development. Given the bespoke nature and requirements of operators, the speculative development of hotel accommodation will not be acceptable.

5 – Area-wide policies

5.1.2 Housing

Overview

- 5.21 The Core Strategy provides a comprehensive suite of policies that support housing provision in the borough. There is however the requirement for a small number of policies in the AAP to support the Core Strategy in dealing with circumstances that are specific to the town centre location.
- 5.22 The following policies (LAAP12 and 13) support the implementation of the following objectives:
- Obj2 – Housing

Policy LAAP12: Conversion of existing buildings

1. The Council will encourage the conversion of existing buildings such as vacant offices or premises above shops for residential purposes provided that:

- a high quality living environment can be provided,
- there is no conflict with existing land uses,
- the proposal complies with policy LAAP11 (employment uses),
- the proposal meets demonstrated local housing need,
- provision can be made for refuse and cycle storage.

Rationale

- 5.23 Lewisham town centre has high public transport accessibility levels (PTAL) and is suitable for higher density development. It is therefore of importance that floorspace is efficiently used to provide active uses that support the objectives of the town centre. The Core Strategy identifies Lewisham town centre as a growth area and is supportive of high density residential development in this location.
- 5.24 The London Plan policy 3.5 supports policy LAAP12 part a) by detailing the need for residential development to provide high quality living space internally and externally. Proposals should adhere to London Plan policy 3.5 as well as general design policies in the London Plan, Core Strategy and other local design guidance.
- 5.25 Part d) demands that conversions to residential use should ensure that they are meeting local housing need and comply with Core Strategy Policy 1.

Lewisham High Street is lined with two to four storey buildings

5 – Area-wide policies

Policy LAAP13: Student housing

1. The Council will, in principle, support the provision of student accommodation within the town centre, providing that the development does not:

- (a) cause a net loss of permanent self-contained homes, employment space or other town centre uses that add to its vitality or viability,
- (b) prejudice the Council's ability to meet its London Plan target for delivery of self-contained homes,
- (c) involve the loss of sites that are considered especially suitable for affordable housing.

2. Further, student accommodation will be required to:

- (a) provide a high quality living environment in private and shared spaces and comply with all relevant national and local standards and codes, including BREEAM and ANUK,
- (b) include a range of unit sizes and layouts, including with and without shared facilities,
- (c) contribute to the establishment of a mixed and inclusive community and does not create an over-concentration of student housing,
- (d) be needed by and easily accessible to the higher education institution/s it will serve using public transport,
- (e) have a positive affect on the existing and emerging environment of the site, Town Centre Area and town centre as a whole,
- (f) demonstrate it is suitable for year round occupation and that it has long term adaptability and sustainability.

Rationale

- 5.26 Lewisham town centre is close to Goldsmiths College (University of London) in New Cross, several campuses of Greenwich University and is within easy reach of many other central London universities. This creates an opportunity for building student accommodation within the town centre. The Council considers student accommodation (purpose built or conversions of existing buildings that are not family housing) as a suitable town centre use in principle providing that developments can meet the rules set out within policy LAAP13.

Nearby Goldsmiths College

- 5.27 Young people and students bring with them a different spending demographic from the existing residents near to Lewisham town centre and will therefore assist in developing an improved economy for the town centre. In particular, students may provide a considerable boost to the evening economy. In support of this, proposals must ensure that ease of access to the town centre from the accommodation is of utmost importance.

5 – Area-wide policies

- 5.28 It is important that proposals for student housing development are of the highest quality design and appearance. The Council will ensure that any student accommodation has a positive effect on the environment and image of the town centre and will strongly resist any proposals that do not improve the range and quality of the existing offer.
- 5.29 A number of criteria will inform the Council if there is an over-concentration of student accommodation, including the existing mix of uses, the character of the Town Centre Area and the impact on existing permanent residents, amenity and infrastructure. Additionally, the Council's housing trajectory will be used to monitor the amount of student housing permitted and ensure that levels do not affect the borough's ability to meet the London Plan housing targets.
- 5.30 The Council will protect the town centre against the construction of buildings that do not serve their intended purpose and run the risk of dereliction. To prevent such circumstances from occurring, speculative development of student accommodation will not be acceptable and the Council will require applicants to secure a commitment of use by an educational institution or a recognised student housing management company prior to commencing development. The location of the occupying universities will also greatly affect the transport assessment required.
- 5.31 The conversion of existing buildings to student accommodation is particularly sensitive given the requirements to provide a high quality living environment which is not always possible with the conversion of existing buildings not originally designed for that use.. In particular, the Council will not approve applications that cause a loss of residential, employment, retail, leisure or community space in the town centre and would not accept student accommodation which would be unduly compromised by the layout or position of an existing building.
- 5.32 Applicants will be required to submit management plans for the student accommodation planned as part of the planning application process.

5 – Area-wide policies

5.1.3 Shopping

Overview

- 5.33 A key element of the AAP vision is to achieve metropolitan status for the town centre, which will require considerable growth in comparison retail floor space.
- 5.34 While growth is of clear importance, it is also vital that existing shopping facilities are protected. Lewisham town centre has a varied retail offer ranging from 'big box outlets' to town centre brands and a healthy selection of independent stores. There is also a popular and historic market that plays a key role in the vitality and character of the town centre.
- 5.35 The following policies (LAAP14, 15, 16 and 17) support the implementation of the following objectives:
- Obj1 – Retail and town centre status
 - Obj4 – Employment and training

Policy LAAP14: Town centre vitality and viability

1. Development will need to sustain and enhance the viability and vitality of the town centre through:
- a greater mix of ground floor uses which may include cafés, bars and other evening economy uses (in conformity with policy LAAP17),
 - incorporation of design principles such as a mix of uses, active frontages and effective street lighting with a view to making the town centre a safer place,
 - shopfront improvements and funding programmes (see Shopfront Supplementary Planning Document).

Rationale

- 5.36 As detailed in the Core Strategy and the vision for the AAP, the Council is encouraging the development of the town centre to become a metropolitan centre. This is in conformity with the London Plan, which strongly supports the maintenance, management and enhancement of shopping facilities within existing centres. The Lewisham Retail Capacity Study states that there is viable development potential available for such expansion as required to achieve metropolitan status.

Town centre commerce

5 – Area-wide policies

5.37 In order for such growth to take place, the centre must be healthy and have local policies in place to protect those elements that bring vitality to the town and ensure future development enhances the strength and animation of the centre. The London Plan places a major emphasis on vitality and viability through a number of policies including 2.15, 4.7 and 4.8.

5.38 While the Council is keen to encourage new retail uses, especially comparison retail, it will demand that any proposal supports the wider aims of the town centre. An appropriate mix of retail types is required and the Council will seek to avoid provision of particular types of retail that are not deemed to be required due to an existing high level of supply. Rather, development should look to create choice and options to enhance the vitality of the centre.

Affordable produce from Lewisham market

Policy LAAP15: Lewisham market

1. The Council will continue to promote Lewisham Market as an essential part of the retail centre and encourage ancillary facilities in order to maintain its viability. The Council will investigate, in consultation with market traders, retailers and other town centre stakeholders, ways in which the market can be improved including temporary use of the market space for alternative activities (e.g. street food stalls or informal leisure activities) in the evenings and other times when the market is not in use.

Rationale

- 5.39 The market plays an important retail role within Lewisham town centre that makes it different from other centres and brings character, vitality and animation to the town centre. Development should protect, enhance and complement the market at all times.
- 5.40 Additionally, a principle has been identified for the potential utilisation of the market area for alternative uses outside of trading hours. This relates to an ongoing Council initiative to promote the innovative use of public spaces for recreational use.

5 – Area-wide policies

Policy LAAP16: Retail areas

Primary shopping frontage

1. Within the primary shopping frontage, as defined in Figure 5.1, the Council will strongly resist any change of use involving the loss at ground floor level of Class A1 shops. The following factors will be taken into account when considering exceptions:

- (a) whether the proposal harms the retail character of the shopping frontage, with an over-concentration of non-retail uses (normally three consecutive non A1 uses and 70% maintained in A1 use),
- (b) whether the proposal will generate a significant number of pedestrian visits,
- (c) whether the proposal uses vacant units (having regard both to their number within the centre as a whole and the primary shopping frontage and the length of time they have been vacant and actively marketed).

2. All proposals for non retail development within the primary shopping frontage, including where relevant, changes of use will:

- (a) not harm the amenity of adjoining properties, including that created by noise and disturbance, smell, litter and incompatible opening hours (all of which may be controlled by appropriate conditions),
- (b) where appropriate, provide attractive display windows and entrances that are compatible with adjoining shop units.

Primary shopping frontage

Secondary shopping frontage

3. Within the secondary shopping frontage, as defined in Figure 5.1, proposals for development or change of use from an A1 shop will generally be acceptable provided:

- (a) it is to another A use class, community use or amusement centre where such a change does not result in an over-concentration of non A1 uses (normally 3 non A1 uses),
- (b) it does not harm the amenity of adjoining properties,
- (c) it does not harm the retail character, attractiveness, vitality and viability of the centre including unreasonably reducing the percentage of A1 units,
- (d) it is considered appropriate in relation to the area's specific retail character.

5 – Area-wide policies

Other shopping areas

4. Outside the primary and secondary shopping frontages as identified above, applications for development or change of use which involve the loss of A1 units will normally be acceptable, provided:

- (a) it does not harm the amenity of adjoining properties;
- (b) it does not harm the character, attractiveness, vitality and viability of the centre as a whole;
- (c) in the case of change to a residential use the frontage for shoppers is not unreasonably interrupted.

Retail Town Centre Areas

5. The town centre benefits from areas of discrete retail character which, individually and collectively contribute positively to the vitality and viability of the centre. There are also areas where major retail led developments are anticipated and the retail character that they create will be an important consideration. These retail Town Centre Areas are identified in the policies and text regarding Lewisham Gateway, Lee High Road, Loampit Vale and Ladywell in Section 4 – Town Centre Areas. In general, development proposals should take account of, not compromise and seek to complement the existing and anticipated retail character of each Town Centre Area.

Rationale

5.41 Policy 2.15 of the London Plan promotes the identification of town centre boundaries and primary and secondary shopping frontages. The Council specifically identified an intention to define primary and secondary frontages within

paragraph 6.93 of the Core Strategy, while the current geographical boundaries of the shopping areas are defined in Table 5.1 and are shown in Figure 5.1.

Table 5.1: Retail frontages

| Primary shopping frontages |
|--|
| The Lewisham Shopping Centre 70 – 212 Lewisham High Street |
| Secondary shopping frontages |
| 73 – 83, 85 – 229, 236 – 252 and 262 – 328 Lewisham High Street |
| 1 – 43 and 2 – 32 Lewis Grove |
| 1 – 91 and 6 – 120 Lee High Road |

5.42 There have been a number of changes in the primary and secondary designations to account for completed development, change of use and general updates. Details can be seen in the accompanying Proposals Map changes document.

5.43 The Council acknowledges that town centres require a wide range of uses, however the primary focus should be shopping. It is considered important to protect the primary retail functions in order to meet the vision for Lewisham town centre to achieve metropolitan status, as well as preserving the retail character and role of the primary centre. To help maintain the overwhelming retail character of the primary shopping frontage the Council will aim to maintain a high proportion of A1 uses within this area, with a target of 70 % A1 use.

5 – Area-wide policies

5.44 The Council recognises that the town centre will require more than comparison retail to remain a viable and vibrant centre, therefore the secondary shopping frontage will be promoted for other popular town centre uses. This includes A2 and A3 uses and a more flexible approach to non A1 uses.

5.45 The Council has taken a more flexible approach to uses outside the primary and secondary shopping frontage. While the Council will seek to encourage the successful use of units for town centre uses, it acknowledges that in some cases a change of use back to residential may be acceptable in appropriate locations.

Independent traders along Lee High Road

5.46 The Council also realises that there is a need to create a more subtle, character based approach to defining priorities for the different parts of the town centre. This is a locally justified decision which reflects the unique way in which Lewisham town centre combines a number of differing approaches to retail in one town centre. The differences and relationships between

the market, small shops, brand stores and 'big box' retail must be allowed for to create a successful centre. Within the shopping centre there are certain identified areas that have their own character and this must be acknowledged and supported by proposals. These areas are expanded on in the relevant Town Centre Areas in Section 4 of this AAP.

Clocktower and market

5 – Area-wide policies

Policy LAAP17: Evening economy uses

1. Overall approach: the Council will encourage proposals for new uses that would positively contribute to the evening economy of the town centre where the following criteria are met:

- (a) the retail character of the area is not harmed (with reference to LAAP16), and in particular the retail character of the primary shopping frontages,
- (b) the proposal would contribute positively to the character of the particular area, as outlined in the LAAP16,
- (c) the cumulative impact of the proposal does not unreasonably harm the living conditions of nearby residents.

2. Particular areas would be suitable locations for evening economy uses, as part of a wider mix of uses. These areas will mainly be outside of the primary shopping frontages and should seek to promote hubs of evening use (see in particular Figure 5.2).

Rationale

5.47 The evening economy means those uses that provide leisure, entertainment and social meeting places in the evening (normally A3, A4 and D uses). The Council is keen to stimulate the evening economy and assist in the provision of an active and vibrant town centre in the evenings. A strong evening economy alongside successful evening leisure uses would improve the image of the town centre and increased activity would help reduce the

Evening entertainment venues

fear of crime. Additionally, it would provide financial stimulus for local businesses and the town centre in general.

5.48 Currently the town centre is lacking in both volume of outlets and a geographical focus of evening economy uses. There are a number of bars and restaurants although these are spread throughout the centre and are largely disparate from one another.

5 – Area-wide policies

- 5.49 In general, the Council will encourage evening economy uses, within the confines of a number of identified criteria. The proposal must contribute positively to and not harm in any way the character of the Town Centre Area. Additionally, the cumulative impact of the proposal must not unreasonably harm the living conditions of nearby residents, including through the creation by noise and disturbance from users and their vehicles, smell, litter or unneighbourly opening hours.
- 5.50 The Council will be particularly supportive of evening economy uses in several sectors of the town centre (see Figure 5.2), including the generation of a cluster of restaurants, bars and leisure uses around the Lewisham Gateway site. This Town Centre Area is highly accessible via public transport, which encourages usage, but is also beneficial in dispersing people late at night. The Lee High Road will also be considered a suitable location, to add to the existing selection of evening uses in place.
- 5.51 Increased evening facilities south of the town centre, in Lewisham High Street between Limes Grove and Morley Road and also in Ladywell, would provide a good balance to the northern offer and would increase the amount of travel through the main retail centre after dark.

Fig. 5.2
Suitable locations for evening economy uses

5 – Area-wide policies

5.2 Building a sustainable community

- 5.52 Section 5.3 details a number of key policies that are vital in delivering an approach to the redevelopment of the town centre that will benefit both existing residents and users and those from generations to come. Policies cover a diverse range of subjects such as urban design, transport and community needs, to ensure that Lewisham town centre becomes a socially sustainable hub.
- 5.53 For the full list of policy and evidence base linkages with these policies see Appendix 1.

Multi award winning public space – Cornmill Gardens

5 – Area-wide policies

5.2.1 Urban design

Overview

5.54 There is a considerable amount of policy and advice available on urban design at a national, regional and local level, however, it remains important for the AAP to consider and provide policy on a number of key design issues. Creating a town centre that provides a safe, accessible and attractive environment is vital to the vision of the AAP. The following policies (LAAP18 and 19) support the implementation of the following objectives:

- Obj3 – Design quality
- Obj5 – Open space and recreation

Policy LAAP18: Public realm

1. Public spaces in Lewisham town centre should be designed to be safe, accessible, attractive and robust through consideration of the following factors:

- (a) the Lewisham Streetscape Guide should be supported, in particular through the avoidance of street clutter, and where it is useful and functional, street furniture and lighting should be designed to delight,
- (b) the provision of public art in association with all major development in the town centre will be encouraged and should be considered at the early stages of the design process,

- (c) development should enhance community safety through the overlooking of entrances and exits and clear definition of public and private space. Applicants should show how they have taken 'Secure by Design' into account,
- (d) new development and public space improvements should be generously sized and designed to improve the wider network of routes and open space in and through the town centre, particularly for pedestrians and, where possible, create new public routes. Enhancements to connections between the town centre and surrounding residential communities are particularly important,
- (e) development should ensure that the public realm and development projects incorporate inclusive design principles. The Council will also seek to make provision for Shopmobility initiatives,
- (f) building lines should be organised to provide generous streets and pavements,
- (g) intelligent planting and street trees should be used to mitigate heat island effects and assist in reducing run-off and flood risk,
- (h) urban enclosure and urban grain play a critical role in creating good quality environments and should be considered in any proposals for development,
- (i) high quality and legible signage should be provided as appropriate.

5 – Area-wide policies

Rationale

5.55 Lewisham town centre has a considerable amount of public realm. While green space is largely limited to the edge of the centre, the core area contains wide pavements, a 'market square' and other civic space. The Council considers that the quality of the core public realm is of the utmost importance in generating an attractive and welcoming town centre.

Landscaped space in Conington Road

- 5.56 In the first place, any new developments should look to add to the provision of space for public realm where possible. This includes not only civic squares or plazas, but also other provision such as generous, wide, well designed pavements and provision for other pedestrian and cycle routes.
- 5.57 Of equal value to the volume of provision, is the approach of development to enhancing existing and new sources of space. To create an attractive environment, consideration needs to be given to a wide range of influences on the public realm, including, but not limited to, the design of, street frontage, building design, height, mass and scaling, shop

fronts, signage, street clutter, furniture and art, lighting, safety features and trees and other natural aspects. For further guidance, the Lewisham Streetscape Guide identifies the Council's principles for creating excellent quality public spaces.

Use of temporary landscaping

- 5.58 The design of all new buildings and improvements to public places will be required to address safety and security issues and the Council will implement Secured by Design principles. Ensuring natural surveillance by good design, making sure ground level development adds vitality at different times of day and night and providing safe routes for cycling and pedestrians are all ways to design safe places, and development will be expected to address these issues.
- 5.59 In order to create good quality environments public spaces should be strongly defined by the built edges that surround them and groups of buildings should be designed to form unified urban 'backdrops'. This can be assisted by respecting and where possible extending

5 – Area-wide policies

the existing street patterns. Buildings should front public spaces, and on major streets and public spaces 'backs' of properties should be avoided wherever possible.

5.60 In general, the approach to urban design and public realm should follow the principles stated. It is also important that consideration is given to other policies within the AAP, in particular policy LAAP2, but also policies regarding energy, historic assets, transport and other design policies.

Policy LAAP19: Tall buildings

1. Applicants will need to comply with Core Strategy Policy 18 and then satisfy the requirements of this policy.
2. Detail of zones generally appropriate or inappropriate for tall buildings and those areas sensitive to such development are shown in Figure 5.3.
3. Tall buildings in the town centre must:
 - (a) maximise this high density development type in the most sustainable town centre locations with access to transport, shops and services
 - (b) increase the amount of local amenity space and improve its quality in order to accommodate tall buildings
 - (c) add positively to the existing and emerging overall Lewisham town centre skyline through sensitive and high quality design providing positive landmarks from all angles of view

- (d) be part of a varied size, scale and height of development
- (e) be sensitive to the surrounding environment, in line with CABE and EH guidance.

4. Applicants should provide detailed modelling to assess the appropriate building height in relation to scale and massing.

Rationale

5.61 Tall buildings have a role to play in the town centre, but need to support a varied skyline and assist in achieving the aims of the wider site, Town Centre Area and town centre as a whole. There are many sensitivities that applicants must consider and analyse the effects of in order to establish if a tall building is suitable. Clearly, tall buildings are not suitable everywhere in the town centre.

Buildings and plaza along Loampit Vale

5 – Area-wide policies

5.62 Applicants must initially comply with Core Strategy Policy 18: The location and design of tall buildings. Following this there are a number of local considerations for Lewisham town centre that must be regarded in relation to the placement and height of tall buildings including:

- Conservations areas
- Listed buildings
- Locally listed buildings
- Undesignated heritage assets
- Local landmarks
- Metropolitan Open Land and other open space
- Rivers
- The World Heritage Site Buffer Zone
- The high street and the street market area

5.63 This list demonstrates that Ladywell and other susceptible locations are inappropriate for tall buildings and several other areas are sensitive to their development. The influence of these factors has been taken account of in creating the appropriate, sensitive and inappropriate zones in Figure 5.3.

5.64 The zones are based on the English Heritage tall buildings guidance and are a rough guide as to the parts of the town centre that may be appropriate, sensitive or inappropriate for tall buildings. Applicants will still be required to complete local analysis and take into account the full

range of factors detailed in this policy and rationale.

5.65 Policy LAAP19 only relates to tall buildings inside the AAP boundary. The policy will not support the development of tall buildings beyond the town centre boundary.

Tall buildings and surroundings

Fig. 5.3
Height guide

5 – Area-wide policies

5.2.2 Sustainable movement

Overview

- 5.66 With a significant proposed increase in residential population and retail floorspace attracting added numbers of shoppers, it is of vital importance that Lewisham town centre is accessible.
- 5.67 The town centre has excellent public transport provision by trains, the DLR and a comprehensive bus network. Additionally the town is crossed by two major London routes, the A20 and the A21. Further there are a number of cycle and pedestrian routes that pass through and around Lewisham town centre.
- 5.68 Policies LAAP20 and LAAP21 are designed to support the development of transport facilities in the centre as the town develops. These policies support the implementation of the following objectives:
- Obj1 – Retail and town centre status
 - Obj5 – Open space and recreation
 - Obj6 – Transport

Policy LAAP20: Public and shopper parking spaces

1. Existing public and shopper parking is to be retained where appropriate and further provision to meet the needs of the growing retail sector in the town centre will be sought to maintain the current ratio of parking spaces to retail floorspace.

2. The development of the following Town Centre Areas and sites are expected to involve a significant amount of new retail floorspace and all existing and any new associated parking spaces should be publicly accessible:
 - (a) Conington Road Town Centre Area,
 - (b) Loampit Vale Town Centre Area,
 - (c) Ladywell Leisure Centre (Site S8).
3. All new developments with more than 20 shopper, visitor and/or residential parking spaces will need to ensure that at least 5% of the bays have an electric charging point installed. Further, all accessible points must meet the Source London criteria so that they can become part of the London-wide network.
4. All car parks should prioritise disabled drivers and those with children.

Existing town centre multi-storey parking

5 – Area-wide policies

Rationale

5.69 The highly accessible nature of the public transport network (buses, trains and DLR) in Lewisham town centre, means there is a policy predilection towards the encouragement of these sustainable forms of transport. Given this preference for public transport over the car, parking levels are lower in Lewisham town centre than in many town centres of equivalent size. The Council however recognises that some groups of people are reliant on private vehicle accessibility; some find it a preferable form of transport and some goods are not suitable for transport via the public network. It is therefore important that a suitable level of public and shopper parking is made available in the town.

Existing public parking on Loampit Vale

5.70 If Lewisham town centre is to achieve metropolitan status it must continue to be competitive with other comparable inner London town centres. The AAP promotes a context for enhanced public transport accessibility, but the centre must also be attractive for car borne shoppers. Therefore the Council will seek to retain the existing quantum of public and shopper parking spaces in the town centre as a minimum level. The Council will also seek to broadly maintain the existing ratio

of parking spaces to retail floorspace through a moderate increase in provision in line with an expansion in retail floorspace. It is hoped that the inclusion of public and shopper parking within the sites identified for redevelopment will manage this requirement.

5.71 The Council's public parking strategy is a pragmatic one. The existing Clarendon and Slaithwaite surface car parks are retained and continue to serve traffic arriving from the east and south respectively. Development of the Ladywell Leisure Centre site has some potential for further public parking for traffic coming from the south, development of sites in Thurston Road provides some public car parking for traffic coming from the west and existing car parking associated at the Tesco store continues to provide public car parking for traffic coming from the north. It should also be noted that the Council will allow the redevelopment of the small Rennell Street car park as it is part of the Lewisham Gateway Strategic Site.

5.72 The provision of public parking at these key gateways into the town centre, coupled with improved signs and real-time information on the availability of spaces, should help enable drivers to park at the first available parking area and help prevent through-traffic from those circling to find a parking space. In support of the edge-of-centre provision, the Lewisham Shopping Centre multi-storey car park and the Molesworth Street surface car park will continue to provide central parking. Potential additional public car parking areas are identified in Policy LAAP20 and shown in Figure 5.4.

5 – Area-wide policies

Policy LAAP21: Sustainable transport

1. The Council will work with a range of partners including Transport for London (TfL), Network Rail, public transport providers, landowners, developers and other stakeholders to ensure that improvements are secured and delivered to the frequency, quality, accessibility and reliability of the town centre public transport network, including those schemes identified in the Town Centre Area policies in Section 4.

2. Specific funding for improvements required to cycling and walking routes in Lewisham town centre will be sought, including:

- (a) the Waterlink Way north of the Lewisham transport interchange towards Conington Road,
- (b) east – west links through the town centre and beyond to the wider neighbourhoods.

3. Additionally, mitigation works to improve the pedestrian and cyclist experience are required at the following locations:

- (a) northern roundabout,
- (b) Loampit Vale,
- (c) Lee High Road and Belmont Hill,
- (d) Lewisham High Street,
- (e) Molesworth Street,
- (f) southern roundabout,
- (g) the junctions at Ladywell Road / Lewisham High Street / Courthill Road.

Rationale

5.73 The enhancement of public transport infrastructure and services within the town centre will improve its accessibility and

encourage an increase in its use.

Reducing reliance on car use and relieving pressure on roads and car parking has the potential to reduce air pollution levels and generally contribute to the environmental sustainability objectives of the AAP.

Alongside service enhancements, improved safety and security measures to reduce crime and the fear of crime, combined with improved signage and the wider promotion of the public transport network, will assist in increasing usage.

5.74 Figure 5.4 identifies a number of the public transport opportunities that the Council will seek, alongside its partners, to deliver through the plan period. This includes improved access to and from the Lewisham transport interchange, enhanced connections to the town centre and multiple opportunities to improve the bus route and stops network (see relevant Town Centre Area policies).

5.75 In support of Core Strategy Policy 14, applicants will be required to enhance cycling and walking routes wherever this is possible. The Waterlink Way provides an excellent cycling route, a key gateway to the town centre and an area of public realm along the north – south axis of Lewisham town centre. A number of sections of this route have experienced major improvements over recent years and developments adjoining the river or with a responsibility to improve the Waterlink Way in the town centre will be expected to continue this recent history through the provision of cycle routes of excellent quality.

5.76 While travel along the north – south route is highly improved, it remains difficult to

5 – Area-wide policies

traverse the town centre along the east – west axis. All developments should consider this and take any opportunity to safely enhance this route.

Waterlink Way running through the town

5.77 The redevelopment of a number of sites in the town centre presents a real opportunity to dramatically improve the accessibility and safety of pedestrian and cycle routes. Applicants will be required to enhance the existing network, providing generous pavements and walking routes and support the safe use of bicycles.

5.78 TfL has proposed that a cycle superhighway will begin at the Lewisham transport interchange and run to Victoria in the centre of London. This is due to open in 2013 and development proposals should give this due consideration. Local cycle linkages to this new regional resource should be planned.

5.79 The Council will and applicants should seek to provide publicly accessible cycle parking throughout the town centre. In

particular, provision should be made available where cycle routes lead through the town centre, in close proximity to the Lewisham transport interchange and to the primary shopping frontages. Cycle clubs or schemes will also be welcomed by the Council.

5.80 Figure 5.5 identifies those areas where the Council has recognised specific opportunities for mitigating the impact of roads and improving the walking and cycling environment. This is not an exclusive list and applicants should consider that there are generally opportunities to improve connectivity across the whole town centre which may even include future proofing for potential cycle hire extension schemes and other measures as appropriate. The quantum of development anticipated for the town centre will only be viable if a modal shift in transport use towards more sustainable methods is achieved. Therefore cycling and walking improvements are central to the acceptability of planning proposals.

5 – Area-wide policies

5.2.3 Community

Overview

- 5.81 Given the desire in the vision and objectives to expand the town centre, it is appropriate to also consider the associated facilities that additional people may require. Social infrastructure, such as schools, doctors, and childcare and leisure facilities, will be planned by the Council to meet the growth of the town centre, while important heritage assets will be protected to retain the important historical context of Lewisham town centre.
- 5.82 The following policies (LAAP22 and 23) support the implementation of the following objectives:
- Obj5 – Open space and recreation
 - Obj7 – Environment
 - Obj8 – Community

Policy LAAP22: Social infrastructure

1. The residential and commercial growth of Lewisham town centre will demand provision of additional social infrastructure such as, schools, childcare and health facilities, and community and leisure spaces.
2. The Council will monitor infrastructure need and work alongside public, private and voluntary groups to deliver services. Specifically, applicants will be required to assist in the funding and implementation of new and improved facilities through both the planning obligations system and direct provision. Full contributions will be required from applicants to support all social infrastructure and in particular the increased demand for school places generated by high density town centre residential development.
3. Priorities for planning obligations for each Town Centre Area are detailed in the area specific policies in Section 4.
4. The redevelopment of existing community, leisure and entertainment spaces for alternative uses will only be permitted if it can be demonstrated that:
 - (a) the facility is no longer needed or an equivalent facility can be replaced at an alternative site with an equal or improved level of accessibility,
 - (b) the locational requirements for the facility are not met,
 - (c) the facilities need updating, which cannot be achieved at reasonable cost,
 - (d) alternative provision of equivalent benefit to the community is made.

5 – Area-wide policies

Rationale

5.83 The Council understands that the planned increase in homes in the town centre will generate greater demand for services and facilities.

5.84 It should be noted that the delivery of the new homes for the town centre is expected to come over the next 10 years and beyond. The Council will need to deliver the associated social facilities at the right time and hence this is also a 10+ year programme. This is a long time in infrastructure terms and therefore while the Council will have a 10 year forecast to understand the amount of provision required in the future, it will not necessarily know the exact sites or details of schemes further than a few years in advance. It is important for the Council to retain several options for the delivery of social infrastructure in order to ensure that the most appropriate option is available at the time it needs to be delivered.

5.85 The Councils Infrastructure Delivery Plan (IDP) plans for the increased demand for infrastructure that comes from the growth of Lewisham town centre over 10+ years. In order to support the process outlined above, it is considered a 'living document' meaning it is regularly updated to include the most up to date information.

Primary school capacity

5.86 Births in the Borough of Lewisham increased by 34% between 2000/01 and 2009/10 with a corresponding increase in the demand for places in primary schools. Demand has exceeded supply since

2009/10 and is forecast to continue at this higher level throughout the plan period (this projection incorporates expected increases due to development activity). This means that across the borough the expected need is for an additional 20+ forms of entry (FE) (600+ pupils).

Redevelopment of Lewisham Bridge into Prendergast Vale through-school

5.87 Primary school place planning in the borough is completed in primary place planning localities (PPPLs) which divide the borough into six areas. For Lewisham town centre, the appropriate PPPL is No. 3 – Lewisham and Brockley. In this area there is a projected shortfall of between 3.5 and 6 FE that will be met as best as possible by a mixture of permanent expansions supplemented by temporary classes. Demand is expected to fluctuate across the borough and therefore temporary flexible solutions will be beneficial.

5.88 Already agreed in PPPL 3 is the expansion of Brockley and Gordonbrock (1

5 – Area-wide policies

FE and 0.5 FE respectively), while work continues to locate existing schools where sites are large enough to expand, identify sites which may be re-commissioned as schools and identify new sites. Further, 3.5 FE are proposed in PPPL's near to the town centre and will contribute significant cross boundary benefits.

- 5.89 Capacity inside the town centre boundary will not necessarily need to increase as provision in the surrounding areas may be able to support the more intensive development in the town centre. Further, development is only one of many influences on pupil numbers in Lewisham town centre. However, the planning department works closely with the education department to ensure that where new development is proposed, such as in the town centre, school places can be supplied to meet the increased demand.

Secondary school capacity

- 5.90 The new Prendergast Vale all-through school will see an extra 120 secondary school places a year in the Town Centre Area from 2012. Expansions at other secondary schools in the borough (most notably Prendergast Ladywell Fields in 2009/10) will deliver an additional 135 secondary spaces between 2009/10 and 2012. The IDP identifies a need for a possible additional 400 – 600 secondary school places in the area by 2019/20. Secondary school place provision is tackled at a borough-wide level and the Council will seek to work with its partners to identify and bring forward the required additional capacity.

Childcare

- 7.1 The Council's Childcare Sufficiency Review (March 2008) reported on a study into childcare facilities across the borough (based on the four children centre service areas). This found that every ward in the borough had considerable capacity, with childcare place vacancy rates of between 7% and 26%. However, supply within and surrounding the town centre was found to be tight. This is unduly influenced by reduced provision in Blackheath due to high property prices, whereas provision in Lewisham town centre is considered to be good.

The Playhouse – potential community use

Primary health care

- 5.91 The proposed population increase in the three wards that comprise the town centre and surrounding area of 5,460 up to 2021 will require an additional three GPs (based on the ratio of one GP per 1,800 people). NHS Lewisham considers that there is currently sufficient physical capacity to accommodate three GPs within the five GP surgeries that border the town centre, although investment will be needed for some of the existing premises to make them fully fit for purpose.

5 – Area-wide policies

5.92 The proposed population increase will require an additional three dentists (based on the ratio of one dentist per 2,000 people). There is considered to be sufficient vacant and proposed accessible new non-residential space in appropriate locations (including the Lewisham Gateway Site) to easily accommodate this requirement.

Community and leisure facilities

5.93 The Council continues to be supportive of the provision of flexible community spaces along with a range of leisure and entertainment uses in Lewisham town centre. In particular, the Council will be supportive of proposals for a cinema in the town centre, and a site at the northern end of the centre, such as the Lewisham Gateway site, is considered to be an appropriate location.

5.94 The AAP is proactive in identifying opportunities for additional community and leisure facilities as follows:

- Refurbishment of the Playtower building in Ladywell into a multi-use community asset
- Potential for enhancement of the Leemore Resource Centre on Lee High Road.

5.95 Further needs for community premises, including the apparent demand for additional churches (as evidenced by the number of unauthorised churches in the Thurston Road Town Centre Area), will be informed by the Council's emerging Community Premises Strategy.

5.96 The Loampit Vale Leisure Centre will provide a significant improvement in the provision of indoor sports and leisure facilities in the town centre, enabling the development of the Ladywell Leisure Centre site for other uses. Opportunities also need to be maximised for the provision of enhanced and additional leisure and sports facilities in and around the town centre.

5 – Area-wide policies

Policy LAAP23: Heritage assets

The Council will require development proposals to conserve and enhance those heritage assets and their settings which contribute to the character of the town centre, in particular (but not exclusively) the assets listed in Appendix 2.

Rationale

5.97 The town centre's development as the borough's commercial heart reflects its historic location at the confluence of the borough's two rivers and later at the junction of busy roads and railway lines. The core of the town centre is dominated by the 1970's shopping centre and today's high density new developments but elsewhere much of the early street layout remains, as well as numerous heritage assets which reflect the area's historical development and define its character

St Mary's Church, Ladywell

Locally listed Victorian terrace

5.98 Appendix 2 lists the known assets in and around the town centre. These are designated heritage assets (conservation areas, listed buildings and the buffer zone to the Greenwich world heritage site) as well as non-designated assets (locally listed buildings, local landmarks, buildings and areas of townscape merit, and the historic market). The assets are shown in Figure 5.6.

5.99 This is not an exclusive list and the Council will endeavour to protect all assets of value whether currently designated or not.

5.100 In addition to the previously designated local landmarks of the Clocktower and St Mary's Church, the Tall Buildings Study 2010 identified three buildings on Lewisham High Street that require recognition as Local Landmarks in the town centre:

- St Saviour's Church, Lewisham High Street
- United Reformed Church tower
- 65 – 71 Lewisham High Street

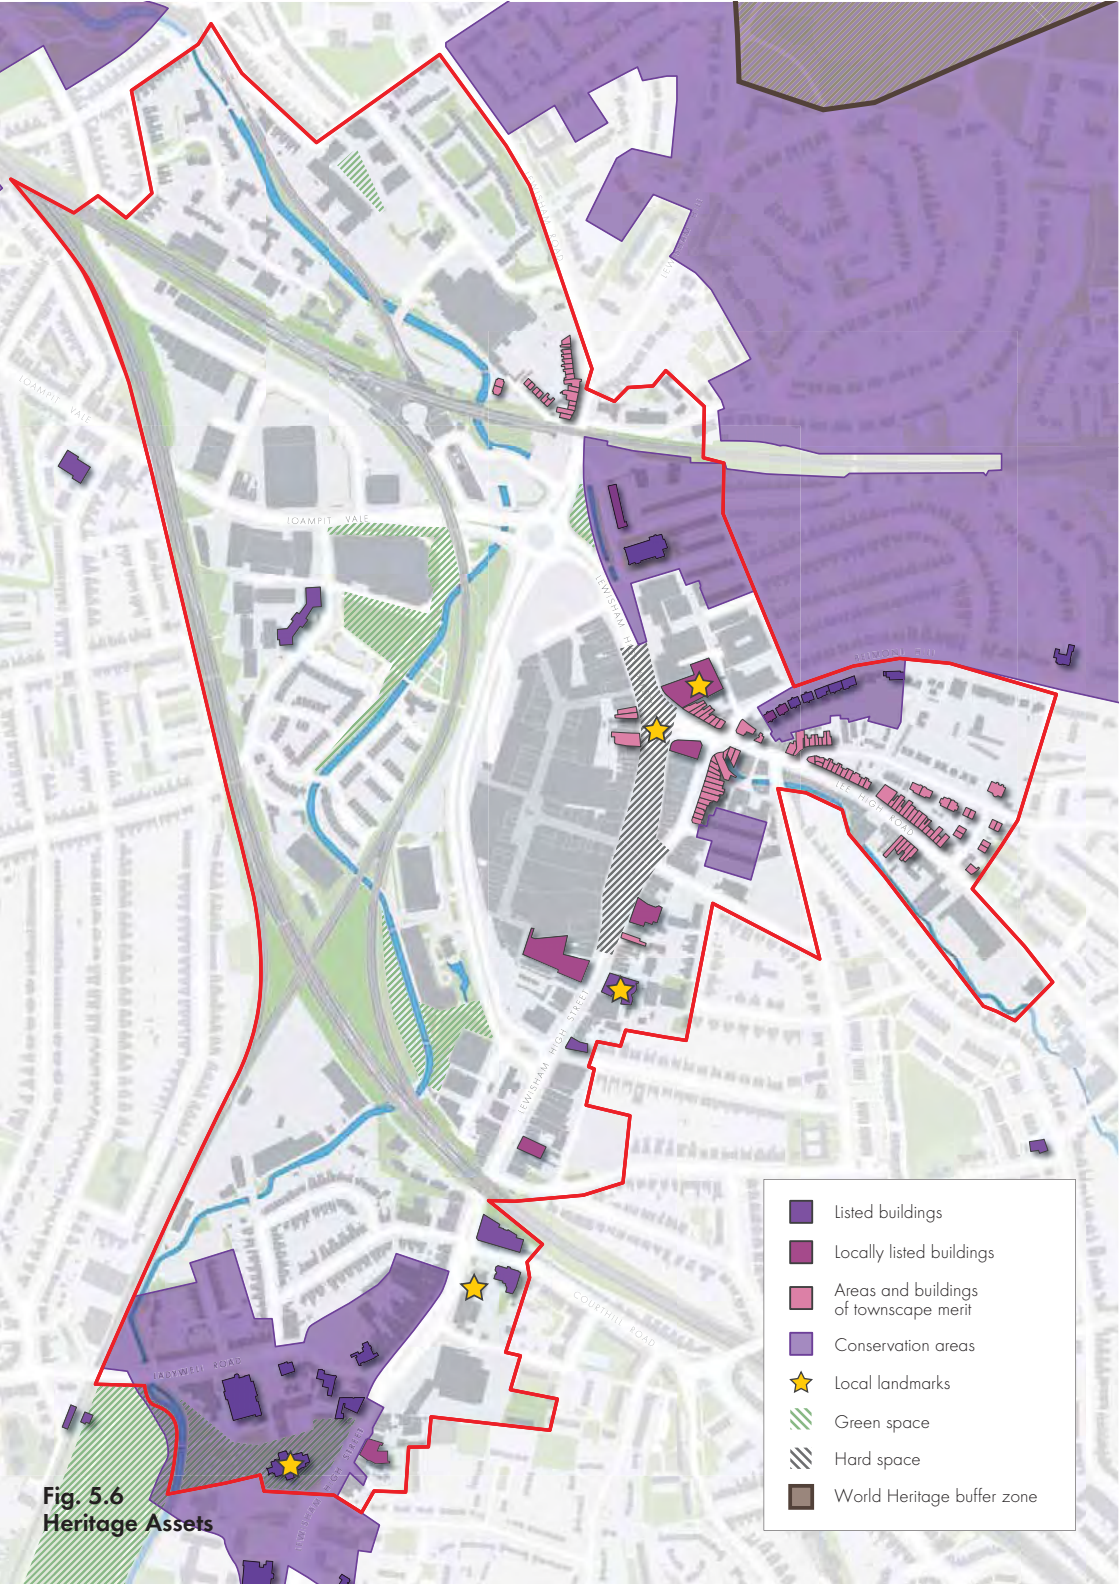

Fig. 5.6
Heritage Assets

- Green space
- Hard space
- World Heritage buffer zone

5 – Area-wide policies

5.3 Environmental management

5.101 Section 5.3 details two policies that are vital in delivering a number of the AAP objectives relating to environmental management and climate change.

5.102 For the full list of policy and evidence base linkages with these policies see Appendix 1.

Overview

5.103 LAAP24 details the approach to be taken by the Council with regards to CO2 emission reduction in the town centre. There is considerable redevelopment anticipated and this offers a great opportunity to deliver a co-ordinated and comprehensive approach to energy production and sharing.

5.104 LAAP25 adds to Core Strategy Policies 7 and 8 in detailing specific aims and deliverable measures to ensure the town centre adapts to climate change.

5.105 The following policy (LAAP24 and 25) supports the implementation of the following objectives:

- Obj7 – Environment

Policy LAAP24: Carbon dioxide emission reduction

1. All 'major development' will be required to incorporate communal heating and cooling which future-proofs the development and allows for larger scale decentralised energy clusters to be developed in the medium to long term, in some cases beyond the plan period. Where it has been demonstrated that a communal heating and cooling system would not be the most suitable option in the short to medium term, the development should ensure a connection can still be facilitated in the medium to long term. In doing so developments should:
 - (a) incorporate energy centres that are appropriately sized not only to accommodate the interim requirements of CHP and other centralised plants, but to accommodate a 'consumer substation unit' – to provide all the necessary equipment for a connection to a heating and cooling network and for domestic hot water preparation,
 - (b) where a communal heating system is not installed, incorporate pipework to the edge of the site which is compatible with any other existing networks or sections and ensure the likely shortest distance to future networks,
 - (c) locate energy centres close to a street frontage (but without creating 'dead frontage' to a street), ensuring the likely shortest distance to future networks,

5 – Area-wide policies

- (d) safeguard routes from site boundaries to energy centres to enable a connection to be made to a network in the future.

2. The LBL Energy Strategy recommends that there is potential for at least three Town Centre Areas which could support a cluster of decentralised energy in Lewisham town centre in the future, as follows:

- (a) Loampit Vale Town Centre Area
- (b) Lewisham Gateway Town Centre Area
- (c) Ladywell Road Town Centre Area

Rationale

5.106 Developments will need to comply with Core Strategy Policy 8 and the London Plan hierarchy principle of 'lean, clean and green'. Therefore opportunities to implement energy efficiency measures should be pursued in the first place.

5.107 The town centre has been identified as a suitable location for decentralised energy networks. The Council will actively pursue options to establish them by, among other things:

- Monitoring opportunities and managing and co-ordinating development proposals
- Working with public and private sector stakeholders
- Facilitating further detailed assessment of logistical and technical issues such as potential energy centre locations, connecting pipework routes and operator issues for sites and clusters that have potential
- Working with TfL and utility companies, to seek to facilitate potential pipework routes when undertaking any major highway works.

Renaissance energy centre: Loampit Vale

5 – Area-wide policies

5.108 The three suggested clusters for decentralised energy in Lewisham town centre are as follows and are displayed in Figure 5.7.

Loampit Vale

5.109 This is a potential future cluster and all opportunities to deliver this cluster should be explored. There is already an energy centre in existence south of Loampit Vale and this could act as a catalyst for future linkages to developments in the wider Town Centre Area, including on Thurston Road. This system could comprise more than one energy centre, with resilience linking.

Lewisham Gateway

5.110 The outline consent for Lewisham Gateway makes provision for an energy centre and there is scope to consider longer term options to link into adjacent sites as the detailed scheme for the Gateway is progressed. In terms of planning for a phased approach it is recommended that the solutions for early phases are based on the installation of temporary high efficiency gas boilers, used to provide heat and establish the concept of district heating. Then once a critical mass on installation has been established the connection and conversion into a wider system can be progressed. Potential anchor loads include the Lewisham Shopping Centre.

Ladywell Road

5.111 This area is part of Lewisham's Low Carbon Zone where Lewisham Council is working with the Mayor of London, GLA

and a range of public, private and community sector groups to deliver a reduction in CO2 emissions of 20% by 2012 and a 60% reduction by 2025. The Ladywell Leisure Centre is a key Council-owned development site and there is an opportunity to incorporate decentralised energy, possibly linking into University Lewisham Hospital to the south of the AAP area.

Promotion for Low Carbon Lewisham

Fig. 5.7
Potential for CHP networks

5 – Area-wide policies

Policy LAAP25: Adapting to climate change

1. All developments and works to the public realm will be able to adapt to the potential impacts of climate change. In doing so applications are required to use measures including, but not limited to, the following:

- (a) living roofs and walls,
- (b) water saving measures,
- (c) sustainable urban drainage systems,
- (d) vegetation and planting,
- (e) siting and design of buildings and services to minimise impacts,
- (f) materials.

Rationale

5.112 Adaption to climate change is a borough wide issue that is dealt with in the Core Strategy. However, there are a number of issues which are specific to town centres and where there is considerable development anticipated and which require more specific actions.

5.113 There are a number of risks that Lewisham town centre will be exposed to as development comes forward, including:

- urban heat island effect
- overheating
- increased demand for cooling
- air quality impacts
- surface water run-off
- flash flooding
- river flooding

5.114 To assist in the prevention of the above concerns, applicants will be required to utilise the adaptation tools and techniques described in this policy and expanded upon below:

- Living roofs and walls:

The Council expects opportunities for living roofs and walls to be maximised throughout the town centre

- Water saving measures:

Measures including rainwater harvesting, greywater harvesting, low flow water fittings and water butts are considered to be deliverable on all town centre developments

- Soakaways and basins:

Particularly appropriate in the town centre are permeable and porous paving and infiltration devices such as soakaways and basins

- Vegetation and planting:

Filter strips and swales to help drain water away and planting that is able to cope with extreme weather conditions

- Siting and design of buildings and services to minimise impacts:

Examples include locating electrical and heating services above the likely maximum flood water level and introducing shading to buildings.

- Materials:

Materials which are resistant to extremes of weather such as flooding or over-heating or which help to mitigate these effects, such as cool pavements.

6 – Implementation, monitoring and risk

6.1 Implementation

6.2 Monitoring

6.3 Risk

This section shows how the vision and objectives of the AAP will be implemented to achieve regeneration and growth in the town centre.

Section 6 first explains the action and involvement the Council will have in ensuring implementation. Second, the monitoring framework highlights the process for scrutinising the progress of the AAP and how and when monitoring and, if necessary, reviewing the plan will take place. Third, there is a brief assessment of the main risks to the successful implementation of the AAP and where appropriate mitigation and adaptation measures are identified to ensure flexibility.

6 – Implementation, monitoring and risk

6.1 Implementation

Overview

6.1 Table 6.1 demonstrates how the delivery of the AAP area wide policies will in turn deliver the objectives and thus the vision of the AAP. Town Centre Area policies LAAP3 – 8 assist in implementing all of the

objectives. The policies of the AAP are also supported by those policies in the Core Strategy and other local Development Plan Documents as well as the London Plan 2011.

Table 6.1

| AAP objectives | Area-wide policies delivering each objective |
|---|--|
| 1 – Retail and town centre status | LAAP10: Mixed use, LAAP11: Employment uses, LAAP14: Town centre vitality and viability, LAAP15: Lewisham market, LAAP16: Retail areas, LAAP17: Evening economy uses, LAAP20: Public and shopper parking spaces |
| 2 – Housing | LAAP10: Mixed use, LAAP12: Conversion of existing buildings, LAAP13: Student housing |
| 3 – Sustainable design | LAAP18: Public realm, LAAP19: Tall buildings |
| 4 – Employment and training | LAAP10: Mixed use, LAAP11: Employment uses, LAAP14: Town centre vitality and viability, LAAP15: Lewisham market, LAAP16: Retail areas, LAAP17: Evening economy uses |
| 5 – Open space and recreation | LAAP18: Public realm, LAAP21: Encouraging cycling and walking |
| 6 – Transport | LAAP20: Public and shopper parking spaces, LAAP21: Encouraging cycling and walking |
| 7 – Environment | LAAP23: Heritage assets, LAAP24: Carbon dioxide emission reduction, LAAP25: Adapting to climate change |
| 8 – Community | LAAP14: Town centre vitality and viability, LAAP15: Lewisham market, LAAP16: Retail areas, LAAP17: Evening economy uses, LAAP22: Social infrastructure, LAAP23: Heritage assets |
| 9 – Implementing and monitoring the AAP | LAAP26: Implementation, LAAP27: Monitoring |

6.2 Policy LAAP26 details the approach the Council will take to ensuring the successful implementation of the AAP over the plan period. Further detail is available in the delivery strategy table (in Appendix 4) containing each policy (site specific and area-wide) and indicating the

delivery timescales, responsible agencies, specific infrastructure needs, risk and flexibility.

6.3 For the full list of policy and evidence base linkages with this policy see Appendix 1.

6 – Implementation, monitoring and risk

Policy LAAP26: Implementation

1. The Council will implement the AAP by working with public, voluntary, community and private sector partners and co-ordinating action, including:

- (a) engaging in pre-application discussions with prospective developers,
- (b) using the Lewisham Design Panel or a site specific design panel to help secure high quality design,
- (c) requiring planning applications to address the AAP's vision, objectives and policies,
- (d) managing its own assets to facilitate appropriate development,
- (e) where appropriate using its compulsory purchase powers,
- (f) implementing the Infrastructure Delivery Plan, Local Implementation Plan and Borough Investment Plan,
- (g) partnership working,
- (h) securing appropriate sources of funding.

Rationale

Pre-application service

- 6.4 The Council has a formal procedure in place to hold pre-application discussions with prospective applicants at all opportunities. Prior to this formal process, the Council encourages applicants, particularly in relation to major schemes, to engage the Council in more informal discussions at as early a stage as possible. The Council encourages early discussions with officers to ensure all aspects of a proposal are considered from the outset in order to provide greater certainty to applicants when developing their proposals. Discussions are focused on emerging design and access statements with a thorough site analysis. The planning case officer co-ordinates policy and design advice from within the Council and where appropriate the Lewisham Design Panel and external organisations (such as the Greater London Authority Planning Decisions Unit), to ensure applicants and their design teams receive timely, focused, co-ordinated and sound advice.

Lewisham Design Panel

- 6.5 The Council operates a design panel of independent built environment professionals. It's purpose is to provide design advice to ensure that development proposals are of the highest design quality and fully reflect and make a positive contribution to local context and character. Prospective developers of major proposals will be expected to present emerging proposals for the town centre to the Panel at appropriate stages of design development. In some cases, a particularly

6 – Implementation, monitoring and risk

complex site may need an individual specialist design panel with several meetings.

Supporting documentation

6.6 Design and access statements are a national requirement and the Local Information Requirements for Lewisham sets out additional documentation that will be required to support major planning applications in the borough. All documents that accompany planning applications for sites in the town centre should demonstrate how the proposals would:

- Make a positive contribution towards the realisation of the vision, objectives and all of the policies in this AAP
- Enable (and in no way prejudice) future development in the rest of the area from doing the same – including the phased delivery of larger sites, in line with AAP policy LAAP2.

LBL owned property

6.7 Subject to satisfying legal and strategic policy requirements, the Council will manage its assets including the property it owns in the town centre in ways that will help deliver the AAP's vision, objectives and policies.

Compulsory purchase

6.8 LBL will consider using its compulsory purchase powers where this would help secure the delivery of high quality development that is in line with the AAP vision, objectives and policies.

Infrastructure Delivery Plan

6.9 LBL has prepared a borough-wide Infrastructure Delivery Plan (IDP) in order to:

- Identify infrastructure needs and costs (including where possible phasing of development, funding sources and responsibilities for delivery);
- Further strengthen relationships between the Sustainable Community Strategy and Local Development Framework (LDF)
- Improve lines of communication between key delivery agencies and the local planning authority
- Identify opportunities for integrated and more efficient service delivery and better use of assets
- Provide a sound evidence base for funding bids and prioritising the deployment of allocated funding
- Help facilitate growth in Lewisham and other growth and regeneration areas
- Integrate with the Planning Obligations SPD and provide the basis for the Community Infrastructure Levy charging schedule.

6.10 The IDP is a live document that will be used as a tool for helping to deliver infrastructure and will be monitored and revised as necessary. Its implementation will be led by Lewisham's Asset Management Board (AMB), which will report to the Sustainable Development Partnership (SDP) – one of the thematic partnerships of the Local Strategic Partnership. The elements of the borough-wide IDP that are considered relevant to the town centre have been placed in the Infrastructure Schedule in Appendix 3.

6 – Implementation, monitoring and risk

Local Implementation Plan

- 6.11 LBL will continue to use the Local Implementation Plan (LIP) process to identify and secure funding for improvements that better manage road traffic, improve public transport accessibility and promote walking and cycling in the town centre.

Partnership working

- 6.12 LBL will work as part of the Local Strategic Partnership (which includes senior representatives from Lewisham’s public, private, voluntary and community sector organisations) in delivering the vision, objectives and policies of the AAP. LBL will also work with other partners, including local businesses, the Greater London Authority, London Development Agency, TfL, Network Rail, rail operators, the Environment Agency, landowners and developers (through the Major Developers Forum), utility companies (through the Lewisham Utilities Network), and others to deliver strategic change.
- 6.13 Further, LBL will engage and work with land and property owners and developers within the town centre to make delivery of developments possible within the context of the plan and vision.

Funding

- 6.14 LBL has an adopted Planning Obligations Supplementary Planning Document (SPD) which sets out a tariff-based approach to the negotiation of financial contributions from developers. LBL may pool contributions in order to meet significant infrastructure requirements (including those set out in the IDP). The Community Infrastructure Levy (CIL) Regulations (April 2010 and 2011 amendments) introduce a new tariff for raising funds from developers to help deliver infrastructure (but not affordable housing) and the Council is currently preparing a charging schedule in compliance with the Regulations. On the local adoption of CIL (expected 2013) the Regulations restrict the local use of planning obligations for pooled contributions, however money generated through CIL will be available to deliver the identified infrastructure.
- 6.15 It is unlikely that planning obligations or CIL will be able to fully fund the infrastructure needs of the town centre, therefore alternative sources of funding will also be required. The Council will endeavour to use the processes identified above (including using its own land and partnership working) to facilitate the delivery of infrastructure. Regeneration of the town centre is largely developer led and the Council will work closely with such developers to seek out private, government and European funding sources.

6 – Implementation, monitoring and risk

6.2 Monitoring

Overview

- 6.16 Government guidance outlines a clear requirement for monitoring to be a central part of the plan-making process. Further, it is vital to the implementation process for the Council to understand if the AAP is successfully delivering the vision and objectives. To achieve this the Council will be using the 'plan, monitor, review' approach as advised by PPS12.
- 6.17 To support this process the Council has produced a monitoring policy as identified below and a monitoring framework as part of the delivery strategy table in Appendix 4.

Policy LAAP27: Monitoring

The Council will facilitate the monitoring of the AAP through the monitoring framework (as part of the delivery strategy in Appendix 4) and the following interventions:

- (a) using annual town centre surveys and health checks
- (b) monitoring progress on planning applications
- (c) reporting progress on infrastructure delivery to the Asset Management Board and Sustainable Development Partnership
- (d) including a town centre specific section in the Annual Monitoring Report (AMR).

Rationale

- 6.18 The delivery strategy table contained in Appendix 4 displays the monitoring indicators and targets and also describes when and how the measures will be monitored. This table will become part of the Annual Monitoring Report process on adoption of the AAP. The table also reflects and complements the monitoring framework in place for the Core Strategy.
- 6.19 The Council recognises that in order to be sure that sustainable development and

6 – Implementation, monitoring and risk

sustainable communities are being delivered in the town centre, it needs to be able to check on whether the aims of the AAP are being achieved and to take corrective action if they are not. Therefore to supplement the delivery strategy identified in Appendix 4 the Council will complete the following monitoring objectives:

- Checking that the monitoring targets identified in Appendix 4 are being met and identifying the actions needed to address any barriers and blockages
- Assessing the risks associated with particular aspects of the AAP and devising risk management strategies and contingency planning
- Monitoring the quality of new developments in Lewisham town centre and their compliance with policies and proposals
- Assessing the potential impacts of new or updated legislation, evidence and national and regional policy and guidance
- Measuring the performance of the AAP against the vision and objectives of the AAP, the indicators identified in the sustainability appraisal process, the Equalities Analysis Assessment process and other relevant indicators
- Monitoring the LDF evidence base and conditions in the town centre to assess the need for further spatial intervention, including checking and updating the assumptions on which the AAP is based

6.20 For the full list of policy and evidence base linkages with this policy see Appendix 1.

6 – Implementation, monitoring and risk

6.3 Risk and contingency

6.21 The implementation plan identified in policy LAAP26 and detailed in Appendix 4 provides a process by which the vision and objectives of the AAP will be delivered. However, within the 10 year AAP plan period there are likely to be many changes to the wider circumstances surrounding the AAP which may affect successful delivery.

6.22 There will be changing economic and market conditions over the plan period, as well as other factors, including changes in legislation and national and London Plan policy, which will impact on the delivery of the AAP and its components. The full impacts cannot be predicted and will be monitored as part of the 'plan, monitor and review' process.

6.23 A short risk assessment covering the key risk areas is set out below. This incorporates commentary on contingency planning, including what alternative strategies will be implemented and what will trigger their use.

Changes to legislation and national or regional policy

6.24 The AAP has been prepared in accordance with legislative requirements and national policy and conforms with the London Plan. The AAP does not repeat national and regional policy, but rather refers to them and considers them in the local context. As a result, small adjustments to higher policy documents should not necessarily affect the

implementation of the AAP. If major changes were proposed the AAP may need to be quickly reviewed alongside other LDF DPDs. This would be overseen by the Council's LDF Steering Group. This would apply to all local authorities and would not be exclusive to the Borough of Lewisham.

Town Centre Area and site development

6.25 A number of the sites identified in the AAP already have granted planning permissions. Other sites are at earlier stages of the application procedure, while some have currently not yet entered the development process. The AAP as a whole has been produced with an understanding that granted permissions may not be implemented and therefore such sites could enter the planning system afresh during the AAP plan period. This has ensured that the policies in place are suitable for both known and unknown developments.

6.26 With all Town Centre Areas and sites there are risks that the expected development will not come forward in the timescales anticipated. The majority of the sites are in private ownership, while some are in multiple ownerships. Private developer co-operation and investment is required in order for some sites to progress. The Council remains in close contact with a number of land and property owners and developers in the town centre

6 – Implementation, monitoring and risk

and continues to encourage progress through partnership working.

- 6.27 The key scheme in the town centre is the Lewisham Gateway development. This site is considered central to the regeneration of the town centre and is hence identified as a strategic site in the Lewisham Core Strategy and monitored and progressed through the associated processes in place. While the successful delivery of this site is central to the AAP and the wider Core Strategy, this does not mean that other development can not occur without it. A number of town centre developments have already preceded the Lewisham Gateway development and are complete.

Infrastructure

- 6.28 There are always risks that national or regional funding for infrastructure projects could be reduced or withdrawn. However, the risk is considered to be low as Appendix 4 states that key projects for the town centre are identified in existing business plans, have known funding sources, and in some instances are under way. The biggest single risk to infrastructure delivery relates to the delivery of the Lewisham Gateway development. This scheme involves road movements, public transport capacity and accessibility improvements, additional and reconfigured walking and cycling routes, open space and river enhancements and leisure provision. As identified previously, this is monitored and progressed through the Core Strategy.

The economic climate

- 6.29 The effect of the recent economic recession has been felt worldwide and this is certainly the case in Lewisham. There has been major government intervention at a national, regional and local level, while development has slowed, albeit less so in London than elsewhere. There is currently little assurance of whether the economy will improve or return to a recessionary state, therefore there is a considerable risk to the delivery of development in the near future, certainly in the first half of the plan period.
- 6.30 Positively, throughout the economic recession, residential and mixed use (with retail and commercial) development has continued apace in Lewisham town centre. Schemes since 2008 on Loampit Vale, Conington Road and Lee High Road have provided hundreds of new dwellings and additional retail and commercial space.
- 6.31 The Council will continue to monitor local economic conditions and work with regional and national partners on wider economic strategies. However, there is confidence that recent progress and the multitude of varied sites in the town centre will assist in maintaining growth throughout the plan period. Any detrimental impact or 'slowing down' of development will be considered if monitoring highlights it, but the Council remains confident that this will only change the phasing of delivery, not stop it entirely.

6 – *Implementation, monitoring and risk*

Evidence base

- 6.32 As with national and regional policy, the local evidence base is another component informing the preparation of the Core Strategy. New evidence and a review of existing evidence will be prepared to respond to changing circumstances, and this in turn may point to the need to change or alter policy. This process will be managed through the Annual Monitoring Report.

Appendix 1: Policy, guidance and evidence base linkages

| | | Relevant policies | | | |
|----------------------------------|-------------------------------|--|---|--|--|

Appendix 2: Heritage assets

The following designations are part of a living list meaning that any new heritage assets designated within the town centre boundary will automatically be added to it. The identified assets listed below can also be found in Figure 5.6 in this report.

Conservation areas

There are a number of conservation areas in and around the town centre which mostly comprise domestically scaled residential streets, notably the Victorian and early 20th century residential areas to the south, east and north.

Three conservation areas fall entirely within the boundary of Lewisham town centre in the north eastern corner. These are:

- St Stephen's, which also lies adjacent to the Lewisham Gateway Strategic Site
- Belmont
- Mercia Grove

To the south of the town centre there are:

- St Mary's, which straddles the town centre boundary
- Ladywell, which lies close to the south western boundary

Other conservation areas close to the town centre are Blackheath to the north east and St. John's, Brookmill Road and Somerset Gardens to the north west.

Listed buildings

The town centre has a number of listed buildings and structures:

- Clock Tower Lewisham High Street (Grade II)
- Church of St Stephen, Lewisham High Street (east side) (Grade II)
- Lewisham Bridge School (Grade II)
- Church of St Saviour and St John the Baptist and Evangelist, Lewisham High Street (east side) (Grade II*)
- Presbytery adjacent Church of St Saviour and St John the Baptist and Evangelist (Grade II)
- St Mary's Vicarage, Lewisham High Street (west side) (Grade II)
- St Mary's Vicarage Garden Walls, Lewisham High Street (west side) (Grade II)
- Church of St Mary the Virgin, Lewisham High Street (west side) (Grade II*)
- Walls surrounding St Mary the Virgin churchyard (Grade II)
- Nos 233 – 241 Lewisham High Street, Rileys (former Temperance Billiard Hall) (Grade II)
- No. 340 Lewisham High Street, Lewisham Fire Station (Grade II)

The first three in the above list are in the northern part of the town centre. The Church of St Stephen is directly adjacent to the Lewisham Gateway Strategic Site.

The other buildings in the list are in the southern part of the centre apart from St Saviour's Church, which provides a landmark on the High Street itself. The Grade II listed former Lewisham Public Library lies just to the south outside the town centre boundary.

Locally listed buildings

There are also a small number of locally listed buildings in the town centre as follows:

- 6 – 8 Belmont Hill
- 17 – 31, 65 – 71, 85 – 87, 93 – 95, 143 – 149 and 219 – 221 Lewisham High Street
- 66 and 180 – 190 Lewisham High Street
- Eagle House, Lewisham Road

Buildings and areas of townscape merit

The council has undertaken an assessment of buildings and areas of particular townscape merit in the town centre. These are buildings and areas that add to the local distinctiveness of Lewisham town centre including:

- All locally listed buildings;
- Architecturally distinctive groups of buildings such as the 19th century terraces that line Lee High Road on the approach from Lee, and Nos 292 – 322 Lewisham Road on the approach from Blackheath;
- Buildings that provide key focal points within the area, such as the rounded corner building No. 23 Lee High Road, the Pub ‘One’ Lee High Road or 100 – 104 Lewisham High Street;
- Buildings that are notable for their architectural detailing, such as the Victorian Villas at Marischal Road or No. 115 Lewisham High Street, which has the elevation clad with unusual glazed brick;
- Areas that have the potential for conservation area designation, such as the western end of Marischal Road or the small island of historic houses comprising Nos 292 – 322 Lewisham Road and Silk Mills Path behind.

The following properties are considered to be of particular townscape merit:

- 1 – 3 (odd) Belmont Hill
- 1, 7, 19 – 45, 51 – 83 and 91 (odd) and 2, 6, 82 – 90 (even) Lee High Road
- 1 – 27 (odd) Lewis Grove
- 65 – 83 (odd) and 90 – 92 and 100 – 104 (even) Lewisham High Street
- 292 – 322 (even) Lewisham Road
- 1 – 9, 51, and 55 – 61 (odd) and 28 – 42 (even) Marischall Road
- 1 – 6 (cons) Germaines Villas and 1 – 2 Sharsted Villas, Silk Mills Path

Local Landmarks

In addition to the previously designated local landmarks of the Clocktower and St Mary’s Church, the Tall Buildings Study 2010 identified three buildings on Lewisham High Street that require recognition as Local Landmarks in the town centre (marked with an * below).

- The Clocktower
- St Mary’s Church
- St Saviour’s Church *
- United Reformed Church tower *
- 65 – 71 Lewisham High Street (The Tower) *

Other concerns

- World Heritage Site Buffer Zone
- The historic street market

Appendix 3: Delivery strategy and monitoring framework

Town centre area policies

| Town Centre Area | Sites | Proposal or allocation | Responsible agencies | Milestones and targets | Specific infrastructure needs* | Risks | Flexibility |
|--------------------------|---|--|--|--|--|---|--|
| LAAP3 – Lewisham Gateway | Overall | Mixed use – 800 homes, 17,000 sqm retail, 8,000 sqm office or business, 5,000 sqm hotel and 5,000 sqm of leisure | LBL, Lewisham Gateway Developments, Muse Developments Ltd, Taylor Wimpey Developments Ltd, | The Lewisham Gateway site development is dealt with by the Core Strategy policy Strategic Site Allocation 6. | | | |
| | Kings Hall Mews | AAP proposes a mix of uses including retail (A1, A2, A3), office or business (B1), hotel (C1) and residential (C3) | London Development Authority, TfL, London Buses and the Environment Agency and other property and land owners and developers | Development complete within plan period | Public realm (streetscape) improvements Sustainable transport enhancements, including for bus services and cycling and walking provision Decentralised energy and communal heating | Planning consent required Site constraints | The Council will continue to work with landowners and prospective developers to address the site constraints and progress a successful application |
| LAAP4 – Loampit Vale | Overall | Mixed use – 1,000 homes, 11,200 sqm net retail, commercial and office development | LBL, Empire developments with L & Q, other land and property owners and developers, TfL and the Environment Agency | | | | |
| | Loampit Vale north west of Jerrard Street | Current granted permission for 6,771 sqm retail, 9 live/work units and 406 dwellings | | Permission granted – 2011 Completion – 2014 | Road enhancements to Jerrard Street to accommodate increased bus traffic Pavement and public realm improvements | Planning permission only until 2012 | The Council will work with the site owner and developer to encourage the commencement of development |
| | Loampit Vale north east of Jerrard Street | Retail (A1 comparison and A2), B1 commercial, with residential above | | Ongoing development and phasing throughout the plan period | Road enhancements to Jerrard Street to accommodate increased bus traffic Pavement and public realm improvements | Land assembly Planning consent/s required | Smaller individual schemes could come forward even if it is not possible for the entire site to be assembled at once. |
| | The Railway Strip | Retail (A1 comparison and A2), B1 commercial, with residential above | | Ongoing development throughout the plan period | Pavement and public realm improvements | Planning consent required Site constraints | The Council will work with the land owners to address the site constraints and progress a successful application |
| LAAP5 – Conington Road | Overall | Mixed use – 400 homes, 3,000 sqm net retail | LBL, Tesco, the Environment Agency | | | | |
| | Tesco block, car park | Retail (A1 comparison and A2), B1 | | Ongoing | Public realm and river environs | Planning consent | The Council will work with Tesco |

Appendix 3: Delivery strategy and monitoring framework

| Town Centre Area | Sites | Proposal or allocation | Responsible agencies | Milestones and targets | Specific infrastructure needs* | Risks | Flexibility |
|-----------------------|-----------------------------------|--|--|--|--|--------------------------------------|---|
| | and petrol station | commercial, with residential above | | development and phasing throughout the time period | enhancements Sustainable transport enhancements, including for cycling and walking provision and access to the railway station Decentralised energy and communal heating | required | and other partners to encourage delivery of development on this site |
| LAAP6 – Lee High Road | Overall | Mixed use – 40 homes, 2,000 sqm net retail: Combination of granted planning permissions | LBL, the Environment Agency, various land and property owners and developers | Permissions granted 2011 – completion 2014 | Environmental improvements to the river and the streetscape | Planning permissions not implemented | The Council will work with the developers to encourage the commencement of delivery as soon as possible |
| LAAP7 – Ladywell | Overall | Mixed use – 150 homes, 1,400 sqm net retail: | LBL, land and property owners (including LBL), developers, TfL | | | | |
| | Ladywell leisure centre | Retail (A1 comparison and A2) with residential above | | Development complete within plan period | Highway, parking and cycling improvements Heritage and community concerns Supporting CO2 reduction zone | Planning permission not implemented | Council owned site reduces risk of non-delivery. |
| LAAP8 – Central | Overall | Mixed use – 600 homes, 10,000 sqm net retail | LBL, Land Securities, Citigroup, TfL, Bridge | | | | |
| | Land north of the shopping centre | Retail (A1 comparison and A2) with residential above | House Trust (Corporation of London). | Ongoing development and phasing throughout the time period | High street and street market improvements Public transport and cycling enhancements Decentralised energy option | Planning consents required | Regular meetings between LBL and property owners, developers to ensure successful application process and encourage delivery in the plan period |
| | Land south of the shopping centre | Retail (A1 comparison and A2) with residential above | | | | | |

* Specific infrastructure needs do not include those requirements that LBL feels are required as standard across all major town centre developments, including contributions towards social infrastructure such as schools, health facilities and community facilities as well as general open space, transport and other key measures. These are dealt with in policy LAAP22

Appendix 3: Delivery strategy and monitoring framework

Area-wide policies

| Policy | Strategic objectives | Responsible agencies | Indicator and action | Target and dates | Indicator source |

Appendix 4: Lewisham town centre Infrastructure Schedule (as of January 2012)

| Stages | Status of project | 'Essential' projects |
|--|--|--|
| <ul style="list-style-type: none"> Pre-2011 Stage 1 – 2012 to 2017 Stage 2 – 2018 to 2022 | <ul style="list-style-type: none"> 'Committed' – where they are ready to go and funding has been secured 'Planned' – scope of project is defined with the intention to deliver, but funding yet to be identified 'Emerging' – need for a project identified, but scope yet to be defined and funding yet to be secured. | 'Essential' projects are highlighted in grey. These are projects that must happen if the policy objectives set out in the AAP are to be met in full. |

P1. Transport

| IDP Ref. | Major links to town centre objectives | Project reference | Requirement | Stage | Approximate capital cost (revenue) | Funding source (status) | Responsible agency (supporting agencies) | Risks and contingency planning |
|----------|---------------------------------------|---|---|--------|------------------------------------|--|--|---|
| P1A | Objectives 5 and 6 | Waterlink Way | Signage and marketing | 1 | £1.96m | LDA (committed) | LBL (with DfL and Environment Agency support) | Waterlink Way is a long-standing LBL objective that is now embedded into the East London Green Grid concept. This project focuses on LBL owned land and risk to non-delivery is low. |
| P1J | Objectives 1 and 6 | Lewisham Station | Re-location of bus layover and increase in capacity | 1 | To be determined | s.106 contributions (planned) | TfL (with Lewisham Gateway Developments Ltd + LBL) | This is linked with and dependent on the Lewisham Gateway scheme. Discussions are continuing with Lewisham Gateway Developments Ltd, TfL, LDA and other sources. Existing bus station will remain in interim and alternative ways of increasing bus service capacity may need to be investigated. |
| P1K | Objective 5 | Bus Stops and Bus Lanes | Measures to improve bus movements | 1 | To be determined | s.106 Contributions (committed) | Developers (with TfL + LBL) | The s.106 agreement that forms part of the planning permission for the Loampit Vale scheme enables TfL to require land from the site to implement a bus lane. Regular liaison meetings with TfL will enable the need for such a widening and s.106 funding should enable this to happen. |
| P1M | Objectives 1 and 6 | Lewisham Town Centre | Re-modelling of Lewisham Interchange (removal of roundabout + creation of 'Low H' layout) | 1 | To be determined | TfL and s.106 contributions (planned) | TfL (with Gateway Development Ltd + LBL) | This is linked with and dependent on the Lewisham Gateway scheme. Discussions are continuing with Lewisham Gateway Developments Ltd, TfL, LDA and other sources over the funding of these enabling works. The Council remains optimistic that this project will proceed imminently. |
| P1V | Objective 6 | Group 3 – Lewisham Town Centre, Brookmill Road and Loampit Vale | Emerging programme for Lewisham TC | 1 to 2 | To be determined | TfL (LIP), LBL, s.106 and CIL contributions (emerging) | LBL (with TfL and developers) | This project comprises a series of interventions, all of which are sub-projects in themselves. Regular liaison with TfL and other stakeholders will enable the overall programme to be monitored and changed where necessary. This is being coordinated via the Local Implementation Plan Neighbourhood and Corridor programmes and is a consideration for gap funding using Community Infrastructure Levy payments. If individual sub-projects fall by the way-side, alternative ways of meeting programme objectives will be developed. |

P2. Utilities

| IDP Ref. | Major links to town centre objectives | Project Reference | Requirement | Stage | Approximate Capital Cost (Revenue) | Funding Source (Status) | Responsible Agency (Supporting Agencies) | Risks/ Contingency Planning |
|----------|---------------------------------------|----------------------|--|--------|------------------------------------|-------------------------|--|---|
| P2C | Objective 9 | Utility enhancements | Necessary adjustments and improvements to the established utility networks | 1 to 2 | To be determined | Developers (emerging) | Developers (utility companies) | The Lewisham Utilities Forum should help improve liaison between LBL and alert the utility companies to development opportunities more quickly. |

Appendix 4: Lewisham town centre Infrastructure Schedule (as of January 2012)

P4. Flood Defence

| IDP Ref. | Major links to town centre objectives | Project Reference | Requirement | Stage | Approximate Capital Cost (Revenue) | Funding Source (Status) | Responsible Agency (Supporting Agencies) | Risks/ Contingency Planning |
|----------|---------------------------------------|---------------------------------|----------------------|-------|------------------------------------|-------------------------|--|---|
| P4A | Objectives 5 and 7 | Lewisham Town Centre Open Space | Channel re-profiling | 1 | Unknown | Developers (planned) | Lewisham Gateway Development Ltd and London Development Agency | This is linked with and dependent on the Lewisham Gateway scheme. Discussions are continuing with Lewisham Gateway Developments Ltd, TfL, LDA and other sources to help ensure the early delivery of this project. If required, alternatives will be explored with the EA and landowners as part of developing and implementing the Ravensbourne River Corridor improvement Plan. |

S1. Education

| IDP Ref. | Major links to town centre objectives | Project Reference | Requirement | Stage | Approximate Capital Cost (Revenue) | Funding Source (Status) | Responsible Agency (Supporting Agencies) | Risks/ Contingency Planning |
|----------|---------------------------------------|--|--|-------|------------------------------------|--|--|--|
| S1B | Objectives 4 and 8 | Gordonbrock Primary School | New build and refurbishment. Expansion from 2.5 FE to 3FE (complete Sept 2011) | 1 | £9.2m | Tranche 1 Primary Capital Programme (committed) | LBL C+YP | No significant risks identified. LBL Project Board is overseeing the delivery of the project. |
| S1C | Objectives 4 and 8 | Brockley Primary School | New build. Expansion from 1FE to 2FE (complete Sept 2011) | 1 | £8.3m | Tranche 1 Primary Capital Programme (committed) | LBL C+YP | No significant risks identified. LBL Project Board is overseeing the delivery of the project. |
| S1I | Objectives 4 and 8 | Prendergast Vale | New all-through school (600 secondary, 210 primary, 25 nursery (complete April 2012) | 1 | £22.7m | BSF (PFI) (committed) | LBL C+YP (Learning 21) | Current planning application for proposals for a revised scheme (incorporating the listed original Lewisham Bridge Primary School). Risk is being mitigated by close liaison with English Heritage and other stakeholders in relation to design. LBL Project Board and Local Education Partnership are overseeing the delivery of the project. |
| S1P | Objectives 4 and 8 | Primary School Capacity Enhancements | Additional 6 forms of entry by 2015/16 (exc 1.5 FE gained by projects above) | 1 + 2 | To be determined | DfE, Planning Obligations (emerging) | LBL (land owners + developers) | High risk and consequences of non-delivery. LBL Planning and LBL Education are liaising closely in order to test the feasibility of expanding existing schools and identify opportunities for new provision. The AMB is considering the wider public sector estate and the opportunities for rationalisation and co-location that may help deliver additional school places. School place projections are reviewed regularly and there are also regular meetings between LB Education and colleagues in adjoining boroughs to discuss and respond to cross-borough movement. Ongoing analysis will ensure that the Council is prepared for further need for development post 2016. |
| S1Q | Objectives 4 and 8 | Secondary School Capacity Enhancements | Additional 14 to 20 forms of entry by 2019/20 (borough-wide) | 1 + 2 | To be determined | BSF (PFI and Design + Build), DfE, Planning Obligations (emerging) | LBL C+YP (Learning 21, land owners + developers) | High risk and consequences of non-delivery. Secondary school place provision needs to be tackled at a borough-wide level and the AMB is considering the wider public sector estate and the opportunities for rationalisation and co-location that may help deliver additional school places. School place projections are reviewed regularly and there are also regular |

| IDP Ref. | Major links to town centre objectives | Project Reference | Requirement | Stage | Approximate Capital Cost (Revenue) | Funding Source (Status) | Responsible Agency (Supporting Agencies) | Risks/ Contingency Planning |
|----------|---------------------------------------|-------------------|-------------|-------|------------------------------------|-------------------------|--|---|
| | | | | | | | | meetings between LB Education and colleagues in adjoining boroughs to discuss and respond to cross-borough movement. Ongoing analysis will ensure that the Council is prepared for further need for development post 2016. |

S2. Health

| IDP Ref. | Major links to town centre objectives | Project Reference | Requirement | Stage | Approximate Capital Cost (Revenue) | Funding Source (Status) | Responsible Agency (Supporting Agencies) | Risks/ Contingency Funding |
|----------|---------------------------------------|--------------------|---|--------|------------------------------------|---|--|---|
| S2E | Objective 8 | GP Facilities | Additional 3 GPs needed up to 2022 (based on the ratio of 1 GP per 1,800 people). | 1 to 2 | To be determined | PCT, joint venture, LIFT, Planning Obligations and CIL (emerging) | Lewisham PCT and LBL (developers) | NHS Lewisham suggests that existing GP practices in the town centre could accommodate anticipated population growth, subject to necessary capacity enhancements. The NHS and LBL are working together to ensure that there is sufficient surgery space to accommodate growth. |
| S2F | Objective 8 | Dentist Facilities | Additional 3 dentists needed up to 2022 (based on the ratio of 1 dentist per 2,000 people). | 1 to 2 | To be determined | PCT, joint venture, LIFT, obligations and CIL (emerging) | Lewisham PCT and LBL (developers) | There is considered to be sufficient vacant or proposed new non-residential space in appropriate locations (especially in the Lewisham Gateway scheme) to easily accommodate this requirement. However, the situation will be monitored in liaison with Lewisham PCT. |

S3. Community

| IDP Ref. | Major links to town centre objectives | Project Reference | Requirement | Stage | Approximate Capital Cost (Revenue) | Funding Source (Status) | Responsible Agency (Supporting Agencies) | Risks/ Contingency Planning |
|----------|---------------------------------------|--|--|-------|-------------------------------------|---------------------------------|--|---|
| S3B | Objective 8 | Lewisham City Mission, Elmira Street, SE13 | Replacement and enhanced church facility (315m ²) with a private garden space (approx. 95m ²). | 1 | Embedded within development scheme. | Barratt East London (committed) | Barratt East London (City Mission) | This is an integral part of the consented Loampit Vale proposals that are on-site and is secured by legal agreements between Barratt East London, LBL and the City Mission. Risk of non-delivery is therefore low. |
| S3E | Objective 8 | Ladywell Tower Project | Refurbishment of existing building into a multi-use community asset. | 1 | To be determined | To be determined (planned) | LBL Community Sector Unit (VAL) | Efforts at the moment are focused on the establishment of a trust that could manage the building and the range of uses proposed. Securing funding for refurbishment works will be challenging. If the project fails, LBL will need to develop alternative means of finding a use for this historic and listed building. |

Appendix 4: Lewisham town centre Infrastructure Schedule (as of January 2012)

S4. Leisure

| IDP Ref. | Major links to town centre objectives | Project Reference | Requirement | Stage | Approximate Capital Cost (Revenue) | Funding Source (Status) | Responsible Agency (Supporting Agencies) | Risks/ Contingency Planning |
|----------|---------------------------------------|-----------------------------------|---|-------|------------------------------------|--|--|--|
| S4A | Objectives 5 and 8 | Loampit Vale Leisure Centre, SE13 | Swimming pool (25m), teaching pool, fitness suite, dance and aerobic studios, 'healthy living suite' and climbing wall. | 1 | Embedded in scheme – £20.5m | Land sale, development agreement and s.106 (committed) | Barratt East London (LBL) | This is an integral part of the consented Loampit Vale proposals that are on-site and is secured by legal agreements between Barratt East London and LBL. Risk of non-delivery is therefore low. |

G1. Green Infrastructure

| IDP Ref. | Major links to town centre objectives | Project Reference | Requirement | Stage | Approximate Capital Cost (Revenue) | Funding Source (Status) | Responsible Agency (Supporting Agencies) | Risks/ Contingency Planning |
|----------|---------------------------------------|-----------------------------|--|-------|------------------------------------|---------------------------------------|--|--|
| G1B | Objectives 5 and 7 | Waterlink Way Open Spaces | Improvements to Green Chain, including major improvements to Ladywell Fields Middle and South. | 1 | £1.96m | London Development Agency (committed) | LBL (Environment Agency) | This is a long-standing LBL objective that is now embedded into the East London Green Grid concept. This project focuses on LBL owned land and risk to non-delivery is low. |
| G1K | | Lewisham Gateway Open Space | New 2,250m ² public open space at confluence of Quaggy and Ravensbourne Rivers. | 1 | Embedded in scheme | Landowner/ developer (planned) | Landowner/ developer | This is linked with and dependent on the Lewisham Gateway scheme. Discussions are continuing with Lewisham Gateway Developments Ltd, TfL, LDA and other sources to help ensure the early delivery of this project. If required, alternative projects will need to be identified to improve open space provision in the area. |
| G1L | | Loampit Vale Open Spaces | Improved and larger 'East Piazza' (approx. 0.19ha) and new 'West Piazza' (approx. 0.14ha) | 1 | Embedded in scheme | Landowner/ developer (planned) | Landowner/ developer | This is an integral part of the consented Loampit Vale proposals that are on-site and is secured by legal agreements between Barratt East London and LBL. Risk of non-delivery is therefore low. |

Glossary

Annual Monitoring Report A report submitted to the Government by local authorities or regional planning bodies assessing progress with and the effectiveness of a Local Development Framework.

Area Action Plan (AAP) A type of Development Plan Document focused on a specific location of an area subject to conservation or major change (for example major regeneration).

Biodiversity Biodiversity is the variety of life, which includes mammals, birds, fish, reptiles, amphibians, invertebrates, fungi and plants and the woodlands, grasslands, rivers and seas on which they all depend including the underlying geology.

Code for Sustainable Homes A national standard for sustainable design and construction of new homes which became mandatory on 1 May 2008. The Code measures the sustainability of a new home against categories of sustainable design using a 1 to 6 rating system to communicate the overall sustainability performance of a new home. The Code sets minimum standards for energy and water use at each level. Go to www.communities.gov.uk/thecode to find out more.

Comparison Retailing The provision of items not obtained frequently. These include clothing, footwear, household and recreational goods.

Conservation Area Areas of special architectural or historic interest designated by local authorities under the Planning (Listed Building and Conservation Areas) Act 1990.

Contribution Land, services, facilities and/or money given by developers of land to the local authority following negotiations, to ensure that the needs of new communities generated by the development are catered for.

Convenience Retailing Convenience retailing is the provision of everyday items, including food, drinks, newspapers, magazines and confectionery.

Core Strategy A Development Plan Document setting out the spatial vision and strategic objectives of the planning framework for the area, in line with the Sustainable Community Strategy.

Department for Communities and Local Government (DCLG) The government department responsible for setting UK policy on local government, housing, urban regeneration, planning and fire and rescue.

Development 'The carrying out of building, engineering, mining or other operations in, on, over or under land, or the making of any material changes in the use of any building or other land' (Town and Country Planning Act (1990) Part III Section 55).

Development Plan Document (DPD) A Local Development Document that has been subject to independent testing and has the weight of development plan status. Replaces the Local Plans system.

Equalities Analysis Assessment (EQAA) Equality Analysis Assessments are concerned with anticipating and identifying the equality consequences of particular policy initiatives and service delivery and ensuring that, as far as possible, any negative consequences for a particular group or sector of the community are eliminated, minimised or counterbalanced by other measures.

Evidence Base The data and information about the current state of Lewisham used to inform the preparation of Local Development Framework documents.

Flood Risk Assessment An assessment of the likelihood of flooding in a particular area (usually a specific site) so that development needs and mitigation measures can be carefully considered.

Glossary

Infrastructure The utilities, transport and other communication facilities and community facilities required to support housing, industrial and commercial activity, schools, shopping centres and other community and public transport services.

Issues and Options and Preferred Options The 'pre-submission' consultation stages on Development Plan Documents with the objective of gaining public consensus on proposals ahead of submission to Government for independent examination.

Lewisham Transport Interchange This includes the mainline railway station, the DLR station and the bus layover site that covers the area sandwiched between both station buildings and the large roundabout that links the A20 and the A21.

Listed Building Buildings of special architectural or historic interest designated by the Department of Culture, Media and Sport under the Planning (Listed Building and Conservation Areas) Act 1990.

Local Development Document (LDD) Sits within the LDF portfolio and comprises Development Plan Documents (DPDs) that have been subject to independent testing and have the weight of development plan status and Supplementary Planning Documents (SPDs) which are not subject to independent testing and do not have development plan status.

Local Development Framework (LDF) The Local Development Framework is a portfolio, or a 'folder', of Local Development Documents which will provide the local planning authority's policies for meeting the community's economic, environmental and social aims for the future of their area where this affects the development and use of land.

Local Development Scheme (LDS) A public statement identifying which Local Development Documents will be produced by the Council and when.

Local Employment Location (LEL) Land that is of local significance and provides goods and services for the local economy, which is used for business use, industrial use, storage and distribution uses, generally being those uses falling within Classes B1, B2 and B8 of the Use Class Order.

Local Strategic Partnership A Local Strategic Partnership is a single non-statutory, multiagency body which matches local authority boundaries and aims to bring together at a local level the different parts of the public, private, community and voluntary sectors.

Masterplan A document which sets out proposals for buildings, spaces, movement strategy and land use in text and three dimensions and matches these proposals to a delivery strategy. The masterplan can be described as a sophisticated 'model' that:

- shows how the streets, squares and open spaces of a neighbourhood are to be connected
- defines the heights, massing and bulk of buildings
- sets out suggested relationships between buildings and public spaces
- determines the distribution of activities and uses that will be allowed
- identifies the network of movement patterns for people moving by foot, cycle, car or public transport, service and refuse vehicles
- sets out the basis for provision of other infrastructure elements such as utilities
- relates physical form to the socio-economic and cultural context and stakeholder interests
- allows an understanding of how well a new, urban neighbourhood is integrated with the surrounding urban context and natural environment.

Planning and Compulsory Purchase Act 2004 National planning legislation from central government aimed at improving the planning process and enhancing community involvement in it. Visit www.communities.gov.uk to find out more.

Glossary

Planning Policy Statement (PPS)/Planning Policy Guidance (PPG) Planning Policy Statements (PPSs) (and their predecessors Planning Policy Guidance Notes) are prepared by the Government after public consultation to explain statutory provisions and provide guidance to local authorities and others on planning policy and the operation of the planning system. They also explain the relationship between planning policies and other policies which have an important bearing on issues of development and land use. Local authorities must take their contents into account in preparing plans. The guidance may also be relevant to decisions on individual planning applications and appeals.

Regeneration The process of putting new life back into often derelict older urban areas through environmental improvements, comprehensive development and transport proposals.

Sequential approach and test A planning principle that seeks to identify, allocate or develop certain types or locations of land before others. For example, brownfield housing sites before greenfield sites, or town centre retail sites before out-of-centre sites.

Stakeholder A person, group, company, association, etc, with an economic, professional or community interest in the borough or a specific part of it, or that is affected by local developments.

Statement of Community Involvement (SCI) The Statement of Community Involvement sets out the local planning authority's policy for involving the community in the preparation and revision of Local Development Documents and planning applications.

Strategic Environmental Appraisal (SEA) A generic term used internationally to describe environmental assessment as applied to policies, plans and programmes.

Strategic Flood Risk Assessment (SFRA) An assessment usually undertaken by a local authority at a borough-wide level that considers flood risk, both fluvial and tidal, and examines the risks involved for developing certain areas within the borough in accordance with Planning Policy Statement 25.

Sustainability Appraisal (SA) Sustainability appraisal is a systematic and iterative appraisal process, incorporating the requirements of the European Strategic Environmental Assessment Directive. The purpose of sustainability appraisal is to appraise the social, environmental and economic effects of the strategies and policies in a Local Development Document from the outset of the preparation process.

Sustainable Community Strategy (SCS) The Sustainable Community Strategy has been prepared by Lewisham's Local Strategic Partnership and sets out how the vision and priorities for Lewisham will be achieved. The Core Strategy is the spatial interpretation of the SCS.

Town Centre Area (TCA) Six Town Centre Areas have been defined in Lewisham town centre. These geographic areas contain the sites where it is expected that most of the change and development will occur in the town centre.
