Foreword

The purpose of the Management Report is to place on record each month, in a consistent format, our performance against priorities. Each month we attempt to give a full account of what is being done, what has been achieved and which areas require additional management attention to secure future achievements. The report gives some coverage to the effectiveness of our partnership working. Reporting on performance is always double-edged. We have high ambitions and targets which are set to stretch management and staff effort. So, there are areas where the need for greater management attention is highlighted.

The report focuses on the Council's performance in line with our corporate priorities, drawing data from performance indicators (PIs), project monitoring information, risk register assessments and financial reports.

Performance:

Performance is being reported for September 2017. There are 13 performance indicators (68% of the total) reported as green or amber against target, and 8 (42%) are showing an upward direction of travel. There are 6 performance indicators (33%) reported as red against target and 11 performance indicators (58%) which have a Red direction of travel. There are no indicators that have missing performance data.

Projects:

Projects are being reported for August 2017. There are no red projects this month.

Risks:

Risks are being reported for June 2017. There are seven red corporate risks - noncompliance with Health and Safety legislation; financial failure and inability to maintain service delivery within a balanced budget; loss of income to the Council; failure of child safeguarding arrangement; serious adult safeguarding concern; failure to maintain strategic asset and strategic programme to develop and implement transformational charge does not deliver. There are thirteen amber risks and one green risk.

Finance:

The financial forecasts for 2017/18 as at 31 August 2017 are as follows: There is a forecast overspend of £13.5m against the directorates' net general fund revenue budget. This compares to a final outturn of £7m for 2016/17 which resulted after applying £2.8m of funding for 'risks and other budget pressures' against the directorates' year-end overspend of £9.8m for that year. The Dedicated Schools Grant (DSG) is expected to balance at the year end. It is expected that there will be 12 schools that require to have a licensed deficit. The Housing Revenue Account (HRA) is currently projecting an additional surplus of £0.6m.

**Executive Management Team,
10 October 2017**

Performance

This report contains September 2017 performance data, and finds that 13 indicators are reported as green or amber against target which is the same as in the last report. In September 2017, 6 indicators are reported as red against target, which is also the same as in the last report. There are no indicators with missing data in August 2017, which again is the same as in the last report.

Direction of Travel

A total of 8 indicators are showing an upward trend in August 2017, which is the same as in the last report. There are 11 indicators with a red direction of travel, which is 1 more than the last report. No indicators have remained the same.

N.B. direction of travel is the change in performance and is measured against the previous year. Therefore changes to targets from one year to the next will affect this.

Overall Performance: Risk

Together, we will make Lewisham the best place in London to live, work and learn

Likelihood	5	10	15	20	25
	4	8	12	16	20
	3	6	9	12	15
	2	4	6	8	10
	1	2	3	4	5
	Impact				

Risk can be defined as uncertainty of outcome due to an event or an action in the future that could adversely affect an organisation's ability to achieve its business objectives and meet its strategies.

Good risk management allows an organisation to have increased confidence in achieving its desired outcomes; effectively constrain threats to acceptable levels; and take informed decisions about exploiting opportunities. Good risk management also allows stakeholders to have increased confidence in the organisation's corporate governance and ability to deliver.

In accordance with the Council's current Risk Management Strategy, risk is monitored by way of risk registers. Risks are scored in terms of likelihood and impact, with a range from 1 to 5 (with 5 being the highest) and the result is plotted on a matrix (as shown) to produce the RAG rating. A target is also set and the risk registers contain action plans to manage the risks to target and these are subject to regular review by Directorate Management Teams. The risk registers are reported to the Executive Management Team and the Internal Control Board on a quarterly basis and quarterly updates are provided in this report. The previous quarter's data will be routinely carried forward until the next quarterly update is made, unless there are matters of significance that need to specifically be brought to management's attention.

The Corporate Risk register has been refreshed to ensure that all risks are more clearly defined and accurately reflect the underlying risks. All of the action plans within the registers now have clear deadlines for completion and these are being made more specific for 2017/18. There are 21 risks in total on the Corporate Risk register (7 Red, 13 Amber, and 1 Green).

The changes to status this quarter are depicted in the table below:-

Change this Qtr.	Ref.	Title	Previous Mar-17	Current June 17	Target	Score change
Risk Changes	1.B.3	Loss of Strategic Asset	9	16	6	7
	2.A.4	Election Efficiency	10	4	4	-6
	3.A.1	Employee Relations	9	12	8	3

Alignment of directorate to corporate risks is regularly analysed and reported to the Internal Control Board. Analysis of the alignment of risks identified in business plans to the directorate registers will be strengthened following completion of the 2017/18 business planning process.

A Risk Maturity Assessment, undertaken by Internal Audit, reported in July 2016. It assesses the Council as 'Risk Managed'. This is the fourth highest of a five point scale. The definition of 'Risk Managed' is 'Enterprise-wide approach to risk management developed and communicated'.

There are six recommendations arising from the Assessment and an action plan is in place to implement these by the due dates. The Risk Management Strategy has been refreshed and was approved by the ICB in July 2017.

Hot Topics

Together, we will make Lewisham the best place in London to live, work and learn

Residents invited to join the Catford conversation

Team Catford, a group of residents who champion local views, is asking for those who live, work, socialise, commute through or run a business in Catford to give their views on the future of the town centre. These views will help inform our plans to regenerate the area. Give your views about Catford. Residents are invited to share their views about the future of Catford at a series of public events in the autumn:

- Wednesday 27 September, 1–5pm, Little Nan's Bar (foyer of the Broadway Theatre)
- Tuesday 3 October, 7–9pm, Rushey Green Local Assembly, Civic Suite, Lewisham Council
- Wednesday 18 October, 11am–2pm, Catford Library
- Saturday 21 October, 10am–2pm, Catford Library

People who live and work in Catford can also have their say about the area online or by using #CatfordConversation on Twitter. Improvements to Catford. Changes to the South Circular in Catford will begin a major programme of development which will result in:

- new retail space
- new homes across the town centre
- replacement of the Milford Towers
- pedestrian-friendly areas
- more open spaces
- new community facilities.

Councillor Alan Smith, Deputy Mayor and member for Catford South said: 'Team Catford is encouraging everyone to join in the Catford conversation. 1000 people have taken part so far, sharing their views about what they love about Catford and what they would like to change. 'So far, some of the most talked about issues have been the South Circular road that divides the town centre, the rundown space between Catford and Catford Bridge stations that's crying out for a commuter café and the iconic Catford Cat.' Comments received from Catford residents online or at the four public events will help us develop a plan to improve the town centre in 2018.

Council tax refund scam alert

We have been advised that some Lewisham residents have been contacted by companies claiming they were due a council tax refund or rebanding worth hundreds of pounds. Contact can be made by telephone, email or text. These companies charge for this service and will require bank or credit card details to deal with your case. The companies also use premium rate phone numbers to provide further information. Residents are reminded that the Valuation Office Agency offers information on rebanding for free and that we will never ask for your bank details in an email. If you want to apply for a council tax refund you can complete our online form. There is no fee for this service. If you think you have been approached by one of these companies please report it to Action Fraud. General advice for staying safe online is available on the Get Safe Online website.

LPZ941 - comment

Performance Comments

Performance

The completion of the 20 week deadline for EHCPs remains vulnerable to changes within staffing across the whole system alongside the actual increase in demand which continues to add pressure. The SEN team is still having to manage the backlog which was created by the historic issues (IT and lack of staffing) and the backlog from related services. Since September 2016, when the SEN team was at full capacity two members of staff have left, we recruited to one of those posts last month and have just recruited to the remaining vacancy. The backlog caused by the lack of staffing capacity within the Educational Psychology will be addressed by the successful recruitment of additional staff, who are due to start in September 2017 once they have completed their training. However there remains a backlog of cases, despite the current recruitment of agency Educational Psychologists. Data published by the DfE in June 2017 (which does not include conversions) shows that 44.9% of EHCPs were completed on time in 2016 excluding exceptions (33.9% including exceptions) by Lewisham's statistical neighbours in Inner London boroughs (excluding City of London). It also shows that 8 out of the 13 boroughs observed a 50-300% increase in the number of EHCPs issued compared to 2015, with Lewisham reporting a 128.6% increase.

Action Plan Comments

Performance Action Plan

The performance of the SEN team is being monitored on a monthly basis. Additional alerts have been put in place (since October 2016) to support case officers to meet their PIs throughout the assessment process. These additional alerts help monitor the 20 week process and will support officers to keep on target. Unfortunately the backlog in the related services continues to impact on case officers being able to meet their 20 week deadline. Whilst additional locum and permanent EP staff have now been recruited the backlog will continue until September; this will impact on the performance against the 20 week target until the autumn term. Note: these comments will be reviewed upon completion of the SEND inspection.

NI192 - comment

Responsible Officer	Performance Comments	Action Plan Comments
Head of Environment	<p>Performance All of the tonnages have reduced from June to July. The amount of waste sent to landfill has reduced from 0.55% in June (63.23 tonnes) to 0.35% in July (37.23 tonnes). The residential household waste per household has also reduced from 62.86 tonnes in June to 56.71 tonnes in July. The percentage of household waste sent for reuse, recycling and composting has reduced from 16.83% (1601.503 tonnes) in June to 16.76% (1447.0225 tonnes) in July. The reduction in the amount of waste and recycling collected could be due to summer holidays with fewer households putting waste and recycling out for collection if they are away. There was also a reduction in tonnage in July 2016.</p>	<p>Performance Action Plan A comprehensive communications plan is being developed which will be implemented when rolling out the new services in October. This will include a communications project to reduce the amount of residual waste. This will be through leaflets to all residents affected by the service change reminding them on what items can be placed in their recycling bin in addition to advising on how to use the new food waste service. New stickers will also be applied to recycling bins advising households what items can be recycled at the kerbside. The new service leaflets are in the process of being distributed to households. The delivery will be completed ahead of the new services starting at the beginning of October.</p>

04. NI Safety, Security and Visible Presence	9,300	300	▲	3.23	<p>Finance Overspend</p> <p>An overspend of £0.3m is projected on crime reduction and supporting people. There are 2 separate budget pressures within the youth offending service which total £0.5m - these pressures are partially offset by managed underspends of £0.2m across the rest of the Division. This overspend relates to two separate budget pressures within the youth offending services. There are as follows: There is a projected overspend of £0.3 on the budget for secure remand placements which has resulted from a combination of a reduction in government grant funding coupled with a significant upturn in the level of remand placements required. Secondly, following the adverse service inspection by the Youth Justice Board, a new staffing structure has been put into place to address the issues raised. This is expected to create a £0.2m pressures on the core budget for the youth offending service in 2017/18.</p>

Responsible Officer

Performance Comments

Action Plan Comments

Director of Children's Social Care

Performance

This indicator refers to a retrospective count of children who were on a Child Protection (CP) Plan for two years or which have ceased within the period as a proportion of all children who were on a CP Plan which ceased within the period. Performance may occasionally fail to meet the target but this demonstrates proactive work to move cases to appropriate pathways, and there may be occasions when the number of children who had been on Plans for more than two years includes a relatively large sibling group. The target of 4% for 2017/18 has been set to recognise the continuing improvement journey that Children's Social Care is on and is related to aligning local performance with the national average. Current performance of 7.1% is further improvement and moving closer to statistical neighbours' average of 6.7%. It is expected with current activity that this figure will move significantly towards target in the October Performance Report.

Performance Action Plan

Targeted action continues to be taken to progress to Child in Need step-down or escalation to Care Proceedings for children on CP Plans. This will prevent drift and extended periods on CP Plans and should also result in this indicator meeting its target by March 2018.

08. NI Caring for Adults and Older People	70,000	1,100	▲	1.57	Finance Overspend The Adult Services Division is forecast to overspend by £1.2m. The main variance relate to placement budgets where existing pressures are compounded by the cost of new transition cases of £0.9m and by the difficulty in achieving the £4.5m savings required for 2017/18. This has been offset by an underspend in strategy and performance on £.1m.

8. Caring for Adults and Older People

Developing opportunities for the active participation and engagement of people in the life of the community

LPI202 - comment

Responsible Officer	Performance Comments	Action Plan Comments
Head of Culture and Community Development	<p>Performance</p> <p>The Summer months see a reduction in visits. However, in spite of the performance being lower than expected, we note that the ratio of books borrowed against visits has moved from 23.8% in June to 32.3% in July to 35.1% in August. This demonstrates that a higher proportion of visitors left the buildings with a book than in any of the previous three months.</p>	<p>Performance Action Plan</p> <p>As expected, the higher proportion of borrowing can be attributed to the Summer Reading Challenge. Management will continue to develop and deliver successful book promotions. The Catford effect is felt both in Issues and Visits, and it is hoped that the layout will be improved by the autumn with a return to expected levels of performance from the Winter.</p>

10. NI Inspiring Efficiency, Effectiveness, and Equity	66,546	2,100	▲	<p>3.16</p> <p>Finance Overspend An overspend of £2.1m is predicted. This is made up as follows: £1.0m overspend by the public services division. Some £0.3m of this is in the revenue service, principally in the central debtors' team and on the IMT budget for collection of council tax. The housing benefits is expected to overspend by £0.1m due to grant reduction from DWP. The service point is projected to overspend by £0.4m due to a combination of income shortfalls and need for building works in the registrar's service and staffing overspend on the business support service. The technology and Change Division is forecasting an overspend of £1.2m. A reduction in the team's budget combined with a new pressure from software licenses is resulting in this overspend. The Regeneration and place division is forecasting an overspend of £0.5m The overspends above have been netted off against the following underspends; Corporate Policy and Governance (£300k), Human Resources ((£100k) and Strategy (RNR)(£200k)</p>

Lessons learnt database under development to capture and monitor the implementation of learning arising from incidents and exercises. In light of recent events we will review our emergency capabilities	Risk - When is it going to be completed? Jun 17

Appendix A - Performance Scoring Methodology

Together we will make Lewisham the best place in London to live, work and learn

Performance

Performance can be measured using two methods. Firstly, current performance is appraised against past performance to assess “direction of travel” – is it improving or worsening? Secondly, performance can be measured against a norm, standard or target.

Areas for management attention are determined by considering performance against the following 2 elements - Against target and Direction of Travel (DoT) against the previous years outturn (in this case March 2017). If both of these elements are red we consider that the indicator should be flagged as an area for management attention.

The Council has aims and objectives as an organisation responsible for securing local public services. But it also has wider aims to work in partnership with other organisations (in the public, private and community sectors) to improve Lewisham as a place to live. It is therefore essential that our PIs not only measure our organisational and service performance against the Council's corporate priorities but also evaluate our efforts to achieve improvements through partnership working. These wider aims are described in Lewisham's Sustainable Community Strategy. A summary on performance can be found in the 'Overall Summary: Performance' at front of the Executive Summary report.

Data Quality Policy

The Council has a Data Quality Policy which is adhered to and sets out the corporate data quality objectives. Directorates also have a statement of data quality and a data quality action plan.

Appendix B - Projects, Risk & Finance Scoring Methodology

Together we will make Lewisham the best place in London to live, work and learn

Projects

Project status is recorded using a red / amber / green traffic light reporting system.

Red: Projects considered to be at significant risk of late delivery, of overspending or of not achieving their primary objectives. Project likely to be facing issues or uncertainties e.g. funding concerns, lack of clarity over scope / costs, other significant risks not yet under effective control. Sheer scale of a project, its complexity and overall risk level can also attract a red rating.

Amber: Projects considered to be at moderate risk of late delivery, of overspending or of not achieving some objectives. Issues may have been escalated outside the project team, but likely that these can be resolved e.g. resources will be identified to deal with moderate changes to costs or scope.

Green: Project considered to be on time, on budget, with current risks being managed effectively within the project structure.

Risk

Risks are scored in terms of likelihood and impact, with a range from 1 to 5 (with 5 being the highest) and the result is plotted on a matrix (as shown on the Overall Performance: Risk page) to produce the RAG rating. A target is also set and the risk registers contain action plans to manage the risks to target and these are subject to regular review by Directorate Management Teams. The risk registers are reported to Heads of Service and Internal Control Board on a quarterly basis and quarterly updates are provided in this report.

Finance

Financial monitoring is recorded using a red/amber/green traffic light reporting system.

Net expenditure on the priority is forecast to vary from budget by either:-

Red - more than £0.5m or 2.5% overspent or more than £10m or 50% underspent

Amber - more than £0.1m and less than £0.5m or by more than 1% and less than 2.5% overspent or more than £5m and less than £10m or by more than 25% and less than 50% underspent

Green - up to £0.1m or up to 1% overspent or up to £5m or up to 25% underspent

The Executive Management Team will take into account:-

- (i)The performance of the housing part of the Capital Programme in assessing the traffic light for Decent Homes;
- (ii)The overall financial position on revenue and capital in assessing the traffic light for 'Inspiring Efficiency, Effectiveness & Equity'.

The methodologies for Projects, Risk and Finance outlined above will be reviewed annually at the end of the financial year as part of the review of this report and the target setting process for performance indicators. The text above will be subject to change at this point.
