Sustainability Monitoring Form

If any environmentally friendly measures are proposed please complete the relevant sections

SITE ADDRESS _____

- 1 What is the expected Code for Sustainable Homes / BREEAM rating?
- 2 Number of Lifetime Homes Number of wheelchair accessible units
- 3 If proposed energy efficient measures are to exceed those required by the Building Regulations what is the reduction in CO2 - as a % of the total emissions? %
 Briefly outline the additional measures
- 4 If a Combined Heat and Power source is to be provided what will be the output in Kwth?
 As a % of the total what is the reduction in the CO2 emissions? %
- 5 If the proposal incorporates renewable energy sources please provide the type, output and CO2 reductions.

	Total output - Kw	% of CO2 reduction
Biomass boiler	<input style="width: 100%; height: 25px;" type="text"/>	<input style="width: 100%; height: 25px;" type="text"/>
Solar water heating	<input style="width: 100%; height: 25px;" type="text"/>	<input style="width: 100%; height: 25px;" type="text"/>
Solar PV	<input style="width: 100%; height: 25px;" type="text"/>	<input style="width: 100%; height: 25px;" type="text"/>
Ground source heat pump	<input style="width: 100%; height: 25px;" type="text"/>	<input style="width: 100%; height: 25px;" type="text"/>
Any other:	<input style="width: 100%; height: 25px;" type="text"/>	<input style="width: 100%; height: 25px;" type="text"/>
Total generating power - Kw	<input style="width: 100%; height: 25px;" type="text"/>	<input style="width: 100%; height: 25px;" type="text"/>
CO2 Reduction as % of the total emissions	<input style="width: 100%; height: 25px;" type="text"/>	<input style="width: 100%; height: 25px;" type="text"/>

- 6 What is the size and type of any living roof/wall m2
- 7 How many wildlife boxes are to be provided on site?

<input style="width: 90%; height: 20px;" type="text"/>	<input style="width: 90%; height: 20px;" type="text"/>	<input style="width: 90%; height: 20px;" type="text"/>
Bird	Bat	Insect

8 What is the expected water consumption? - litres per day per person

Expected total occupancy

9 If a sustainable drainage systems (SUDS) proposed please specify the method(s)

Rainwater harvesting

--

Grey water recycling

--

Permeable surfaces

--

Other

--

If known - what is the expected run off rate - litres/hectare/second

--

10 If a site construction waste management plan been produced please give details

--

11 If a green procurement policy/plan been produced covering building materials please give details

--

12 If any provision is to be made for waste recycling or composting please give details

--

13 If consideration has given to overheating and flood risks please give details

--

14 Numbers of: Cycle spaces

--

Car clubs/bays

--

Car charging points

--

Motor cycle spaces

--

15 Any other sustainability measures:

--
