

Director of Regeneration

Up to £114,000

There could not be a more exciting time to join us. We are incredibly ambitious for the future of Lewisham. Our plans will deliver thousands of new social and affordable homes for all of our communities. Working with our development partners, the GLA, TfL and Network Rail we will transform our town centres and our major transport hubs. We are fully engaged with our vibrant communities to ensure that they are involved in the evolution of our dynamic, distinct neighbourhoods and places.

- We are working closely with TfL to influence the Bakerloo Line Extension into Lewisham and beyond which will open up fantastic opportunities for investment in the borough.
- We have a large pipeline of our own sites which will deliver high quality social homes and amazing new commercial opportunities.
- Master-planning for Catford Town Centre is nearing completion which will see the greatest investment in the area for generations.

Your track record of leading regeneration will drive us forward. Your commercial knowledge and your understanding of how to assemble and use strategic assets will ensure the Council is fully optimising development opportunities. Your passion to get the best outcomes for our residents will secure your position in shaping regeneration in one of London's fastest growing boroughs.
