

LB Lewisham

Head of Highways and Transport - up to £72,705

Lewisham is an exciting and vibrant inner London borough with award winning parks and open spaces, great transport links and a thriving cultural scene. We are one of the fastest growing boroughs in London and have ambitious plans to deliver our largest social housing and town centre renewal programme in a generation.

As our lead expert on highways and transport, you will set the direction and lead on all transport related matters. Lewisham is working closely with the GLA, TfL and our rail partners to develop a transport network that is fit for the future. As well as ensuring appropriate policies are in place, you will be instrumental in significant projects such as moving the South Circular in Catford, the proposed Bakerloo line extension and London's Healthy Streets agenda.

With a track record of managing highways and transport in London, you will have strengths in transport planning, excellent leadership and stakeholder skills and an understanding of the issues surrounding climate change.

For further information please visit www.gatenbysanderson.com or for a confidential discussion please call our advising consultants at GatenbySanderson, Greg Hayes on **0207 426 3962** or Rachel Cox on **0113 205 6068**.
