# Mainstream secondary schools in Lewisham

# Introduction

Hello! I'm Edison, the new Cabinet Member for Children and Young People here in Lewisham. As a former Year 7 teacher in a Lewisham secondary school, I know what an exciting but also anxious time this is for you and your child. We've put together this guide to help you to work out which school is right for your child. It offers information about the process of moving from primary to secondary school, and also about every secondary school in the borough.

Both as a science teacher and a primary school governor, I've seen first-hand the dedication of our teachers, teaching assistants, special educational needs coordinators, and support staff, who are all committed to ensuring that every child, regardless of background, can flourish. This is further evidenced by the work we are collectively doing as part of the Tackling Racial Inequality in Education work, led by all of our schools and governing bodies to deliver teacher and leadership training, strengthening parent and community relationships, and to develop a modern curriculum that better reflects our diverse communities. These improvements to our education system will be beneficial to all Lewisham children, irrespective of their background. [lewisham.gov.uk/race-inequality](http://lewisham.gov.uk/race-inequality)

The most recent Ofsted inspections tell us that

99% of maintained schools and academies in Lewisham are 'Good' or 'Outstanding'. You might be surprised by what's on offer at schools closer to home once you visit and speak to staff, parents and students. The positives of going to a local school not only include the shorter journey times but also familiarity with the area, other students, and the wider community.

This familiarity extends to our secondary schools which work closely with our primary schools to ensure a smooth transition, paying careful attention to any special needs that you and your child may have. Choosing a Lewisham school also means easy access to our award-winning library services as well as our youth services through the Lewisham Youth Alliance – a collection of local organisations supporting your child to develop more holistically through play, music, sports, and other extracurricular activities. Our schools have a lot to offer, and my strong advice would be to visit as many schools as you can before deciding. Wherever your child goes, we wish all those starting secondary school next year the very best for the future.

and Young People

# Applying for your child

Applying for a secondary school place can seem like a daunting task. Here are the things you need to know and some tips on the process to help you.

## **Make a note of the deadline date for applications – Monday 31 October 2025**

You need to apply for secondary schools when your child is in Year 6. The application period starts on 1 September and closes on 31 October each year.

## **Which schools can I apply for?**

You can apply for schools in the borough of Lewisham or outside the borough, but not special schools, alternative provision, pupil referral units, or independent (fee-paying) schools.

## **Visit as many schools as you can**

Visit as many schools as you can before deciding which ones to apply to. School open days will show you more than a league table can – you'll get a flavour of the school, meet headteachers, staff and students, go on a tour of the school and see examples of students' work.

## **Read the admissions criteria**

It's very important that you understand the admissions criteria for the schools you're interested in so you know whether you have a realistic chance of your application being successful.

## **Use all your six preferences**

You can apply to up to six schools. When you apply, you should use all six preferences for the best chance of getting a place at a school of your choosing. You must list your schools in preference order.

## **Apply online**

Applying online is quick and easy. You need to complete a supplementary information form for some schools, as well as naming the school on your application. For example, a church school will need to see evidence from your church leader of church attendance.

## **National offer day is Monday 2 March 2026**

If you made an 'on time' online application, you will get an email on the evening of Monday 2 March 2026, telling you where your child has been offered a place. If you applied on a paper application form, or if you haven't been offered a place at any of the schools you applied for, we will send you the results by first class post or by email on the evening of Monday 2 March 2026.

For more information about applying for a secondary school place, visit [www.lewisham.gov.uk/secondaryadmissions](http://www.lewisham.gov.uk/secondaryadmissions)

# Special educational needs and disabilities provision and special schools

**In Lewisham, we are determined to support all children to thrive and achieve their full potential.**

Most children and young people with special educational needs (SEN) and/or disabilities are educated and supported in mainstream schools. Each of our mainstream secondary schools has a special educational needs policy and SEN Information Report published on their website for parents/carers to review and to find out more about the SEN provision of the individual school. These policies and information reports, which apply to all schools, including academies and federation schools as well as community schools, explain the school's approach to SEN/SEND. Reading them is a good place to start when you're planning your school visits and when you are considering options for your young person's transfer to a secondary school.

It's a good idea to talk to other parents of children with SEN/SEND and/or with Education, Health and Care Plan (EHCP) who already attend the school. Most schools will also be happy to arrange a meeting with the Special Educational Needs Co-ordinator (SENCO) before you apply for a place / highlight a preference for a particular school in your application form so you can discuss your child's needs and how the school would meet those needs.

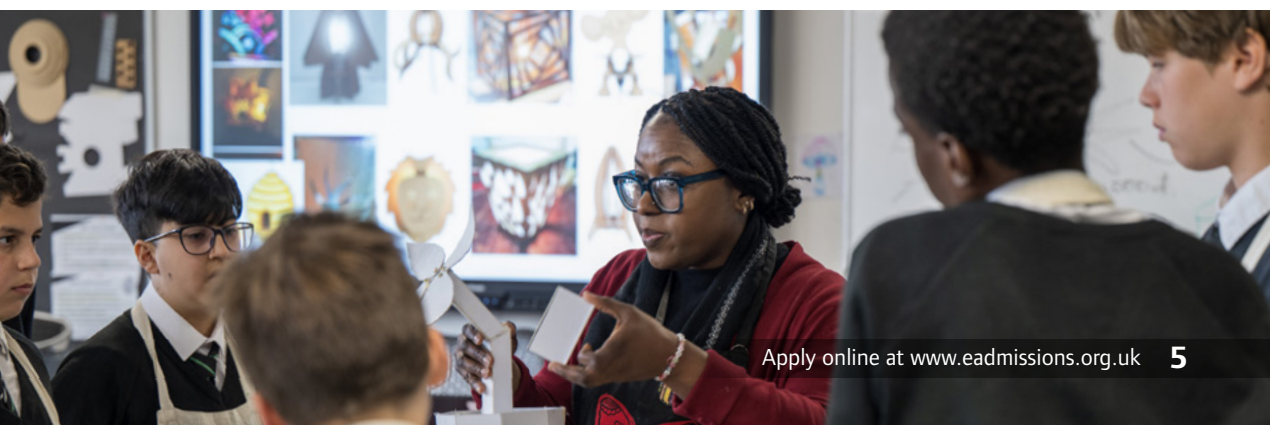

If your child has an (EHCP), the process of applying for a secondary school is different. The statutory SEN Service will ask you to express your preferences and a formal process of consultations will commence with your preferences. However the LA might also add local preferences to the mix. Your child's primary school and Senior SEN case officer can advise further on this via your child's annual review process.

Our four local special schools for children of secondary school age are: Greenvale, New Woodlands, Drumbeat, Brent Knoll. We also have an Alternative Provision called Abbey Manor College.

Some of our Secondary Schools have SEN Resource Bases within the mainstream setting. These Resource Bases have set admissions criteria, catering for certain special educational needs. The consultations for these places for learners with EHCPs will be undertaken by the statutory SEN Service as advised above.

**For more information about the specialist provision at each of these schools and the application process, visit the website and/or speak to your child's current school and the SEN Team.**

# How the preference system works

On national offer day your child will be offered one school place. If they qualify for a place at more than one school on the list, they will be offered a place at the school that comes highest out of those potential offers on their list of preferences.

If we can't offer your child a place at one of the schools you applied for, we will offer them a place at the school closest to your home where there is a vacancy. We strongly recommend that you apply for six schools, including your nearest school.

## Examples of the preference system

- Child A has applied for six schools. They don't qualify for a place at the first or second preference school but do qualify for a place at their third preference school. We offer the third preference school to the child on national offer day. The fourth, fifth and sixth preference schools are 'settled' (meaning your application is not progressed further) as they were ranked lower on the list. The child stays on the waiting list of their first and second preference schools and they will get the right of appeal for them.
- Child B has applied for one school. The school is oversubscribed and the child does not qualify for one of the vacancies under the admissions criteria. We tell the parent the outcome and about their right to appeal. We offer a place at the closest school in Lewisham to the family's home where there is a vacancy as an alternative. The child stays on the waiting list for their preferred school.
- Child C has applied for six schools and can be offered a place at their first preference school on national offer day. All of the other schools named on the list are 'settled'. However, the child has an older brother at their third preference school and, after national offer day, the parent wants the child to go to that school instead. The parent will then need to contact the admissions team to make a further application so their child's name is added to the school's waiting list. The parent is also advised to accept the school place offered.
- Child D has applied for six schools, all outside the borough, but does not qualify for a place at any of them. We offer the parent a place at a school where there is a vacancy and tell them about their right to appeal. However, the parent wants their child to go to a school close to their home, which they hadn't applied for. That school is oversubscribed and has not been able to offer all applicants a place. The parent will need to contact the admissions team to make a further application to add their child's name to the waiting list. The parent is advised to accept the place offered and will remain on the waiting list for their higher preference schools.

Our admissions team is available to answer any questions about admissions criteria and the preference system. You can email them at [secondarieschooladmissions@lewisham.gov.uk](mailto:secondarieschooladmissions@lewisham.gov.uk)

# Common myths about the admissions process

You will probably hear lots of different things about how the school admissions process works. Here we explain some of the common myths and assumptions people make.

## 1. My child has a right to a place at one of my preferred schools

Not true. Your child will only be offered a place if they qualify according to the school's admission criteria. If your child does not qualify for any of your preferred schools (for example, because your preferences were unrealistic) they will be offered a place at the nearest school to your home that has a vacancy after all on-time applicants have been offered places.

## 2. If I list only one school then my child has to be offered a place there

Not true. Listing only one school does not increase your child's chances of being offered a place. You are strongly advised to use all six preferences and include your nearest school among them.

## 3. I live nearer to the school than a child who was offered a place under the distance criterion last year so my child is guaranteed a place

Not true. The number of pupils that each school offers places to under each criterion can change from year to year. Just because you know pupils living near you that go to a certain school, it doesn't mean your child will be offered a place there. The information about offers in March 2026 for each school is on page 6. However, remember this information is a guide only and no child is guaranteed a place at any school.

## 4. If I don't put down the nearest school to my house, my child will get allocated a place there anyway

Not true. If your child doesn't get offered a place at any of your preferred schools, they will be offered a place at the nearest school in Lewisham that has places. This won't necessarily be the school nearest to you.

## 5. If I put the nearest school down on my list of preferences, the local authority will just allocate my child to that school to fill places, regardless of what order I list it

Not true. The admission system is subject to strict legal rules to ensure fairness, and is monitored and managed extremely carefully. The local authority will only offer your child a place at the school closest to you if it is on your list, and they do not get allocated a place at any schools higher up your list.

## 6. If I 'hassle' the local authority every day and call or email them constantly to make sure my child gets a place at their preferred school, they will eventually give my child a place to keep me quiet

Not true. You will get a place dependent on where you are in the waiting list. Waiting lists can move between March and September, and you may get other offers. Because of the strict legal rules that guide this process, your chance of getting other offers will not be affected in any way by the amount of contact you have with the admissions team. It's a very busy time for them and they are legally required to allocate places through the admissions criteria process.

We believe that with hard work, kindness, integrity and excellence, our students will find success, and these values lay at the heart of Academy life, threaded through everything that we do. Our success as a school is evident in the continuing trajectory of year-on-year improvements in GCSE results and student progress measures for the past few years.

In 2024, over 2/3 of Year 11 students achieved a grade 4 or above in both GCSE English and maths, with 55% achieving grade 5 or above in both, and 1/5 of students achieved a grade 7 or above in both GCSE English and maths. In the Sixth Form, over 1/3 of A Levels resulted in A\* or A grades, and 48% of Year 13 students achieved all A\* to B grades. Students went on to secure places at leading universities including Queen Mary's University of London, Birmingham and Nottingham.

When you visit us, as well as the strong focus on students' academic success, you will find a caring and friendly environment, with a culture of aspiration where everyone is striving to bring out the best in themselves and each other. But at Sedgehill, we believe that there is more to a good education than just academic success. We aim to develop character, compassion and service through delivery of an Education with Character, which challenges, inspires and excites our students, helping them to become happy, confident and successful young adults.
